

HOLD 3 IN NEW MARK

COOLIDGE MEETS
DEFEAT IN HOUSE
FLOOD BILL TESTHis Proposals Lose,
73 to 142.

(Chicago Tribune Press Service.)

Washington, D. C., April 23.—(Special.)—Administration forces met defeat today on the first test of strength in the flood control legislation in the House. By a vote of 73 to 142 the House in committee of the whole rejected an amendment of Representative Madden (Rep., Ill.) embodying proposals of President Coolidge.

The temper of the chamber made it a certainty that other Coolidge suggestions which are in dispute would meet a similar fate tomorrow and that the bill would be passed in a form objectionable to the President. That he will veto it if it reaches the White House in the form in which it will receive house approval was predicted by Representative Tilton (Rep., Conn.), the majority leader.

Debate Is Acrimonious.

The House battled over the legislation for six and one-half hours. The debate was the most acrimonious of the session. Among the crowd in the galleries were Mayor William H. Thompson of Chicago and Richard W. Wells, his commissioner of public works.

The Madden amendment provided for local interests should furnish right of way for levees both on the main channel of the lower Mississippi and along the sides of proposed levees and spillways. It also provided the government from under the work on the proposed Bonnet Creek until the city of New Orleans in recognition of its paramount interest therein, should agree to accept the United States against all damage claims arising out of its construction. A similar guarantee was secured in the case of the New Madrid floodway in Missouri was provided for.

Madden Makes Plea.

"I propose to vote against the bill because how many good things there are in it unless you put this in," said Representative Madden. "The President of the United States has done everything in his power in connection with this problem. I think you are making a mistake in refusing to co-operate with the President. You can't say this bill. I have no doubt, but you won't pass it over his veto."

Representative Nelson (Dem., Mo.), (Ill.), in opposing the amendment, declared the adoption would mean the defeat of the entire flood control program. The people of the area in which the proposed floodways and spillways are to be located, they asserted, do not want them, inasmuch as they are primarily for the protection of the region.

Adapt Flood Amendment.

In view of the Madden proposal, the House approved a section offered by Representative Reid (Rep., Ill.) chairman of the flood control committee. It provides that local interests should furnish right of way for additional levees needed on the main channel of the Mississippi but not for levees along the sides of the spillways. The Reid amendment also included a clause relieving the United States from any liability for damages for or by floods or other waters at any place. This was the gist of the Coolidge amendments which the House flood control committee accepted.

With the exception of the proposals

included in the Madden amendment and a provision in a later section of the flood control committee report, the House later section, action on the bill will come tomorrow, the government would not purchase either the right of way or the land between the levee and spillway levees. In the event that water is diverted from the Mississippi into the floodways or spillways, however, property owners would be entitled to such compensation as they would be entitled to under the constitution.

Steps to Avoid Scandal.

Steps in the section which the President has made as a means of avoiding a scandal in the sale of land to the government. Prospects are that the House tomorrow will approve the government by which the government is authorized to purchase the land or other rights.

The House approved a number of amendments offered by Representative Madden in the bill conforming to the views of President Coolidge. Under these a board of three, composed of the chief of engineers, the chief of the Mississippi river commission, and one civil engineer chosen by the board, will be authorized to

PLANE FIXED;
FIRST STOP AT
QUEBEC TOWNFitz, Balchen Land
at Greenly Island.

BULLETIN.

LAKE STE. AGNES, Que., April 24 (Tuesday).—(By the Canadian Press.)—Messages received here this morning indicated that the German Junkers plane Bremen would leave Greenly island at dawn today on a continuation of its flight from Ireland to New York.

The Bremen, according to latest advices, will arrive at Lake Ste. Agnes early today, remain here a day, and then continue to New York with an escort of planes assembled here.

The messages said that satisfactory repairs had been made to the Bremen in a short time with parts carried to Greenly island in the Ford relief plane. Ideal flying was forecast for today over the route from Greenly island to Lake Ste. Agnes.

(Copyright, 1928, by United Press.)

(Picture on back page.)

GREENLY ISLAND LIGHTHOUSE, Labrador, April 23.—(By courier to Point Amour, Labrador.)—The little colony of permanent residents here and a handful of visitors were busy tonight making repairs to the German airplane Bremen to enable it to resume its flight to New York City. It may hop off tomorrow.

The relief plane from Montreal, driven by Bert Balchen and carrying Maj. James Fitzmaurice, arrived this afternoon, bringing a new undercarriage, new propeller and replacement parts for the Bremen, as well as cigars, cigars, wine and delicacies for Capt. Herman Koehl and Baron Gunther von Huenefeld, the German flyers.

Dr. Cuslinier, who came here a week ago with C. A. (Duke) Schiller on the first relief plane sent by the Canadian Trans-Continental Airways, is superintending the repairs to the Bremen. Baron von Huenefeld has been confined to the home of Jacques Le Temple, lighthouse keeper here, for the last two days suffering from a severe cold. His condition is not serious, but he is plainly showing the effects of nerve strain.

Relief Plane Arrives.

(Copyright, 1928, by the New York Times.)
MURRAY BAY, Que., April 23.—With the arrival of the parts necessary to repair the Bremen, high hopes are held that the German trans-Atlantic monoplane, stranded on Greenly island, can be put into the air again tomorrow or Wednesday at the latest. The plane will hop to St. Agnes' field to refuel and then to New York.

The Bremen, her undercarriage broken and her propeller bent, is propped up on the frozen reservoir where she was forced to land after crossing the ocean only to lose her bearings in a fog at night.

It was just before noon today, according to advices reaching here, that the Ford ship, bringing relief, landed on the icebound shore of the little island, where Capt. Herman Koehl, the Bremen's pilot, and Baron von Huenefeld, her passenger, have been waiting while Maj. Fitzmaurice, co-pilot, went for help.

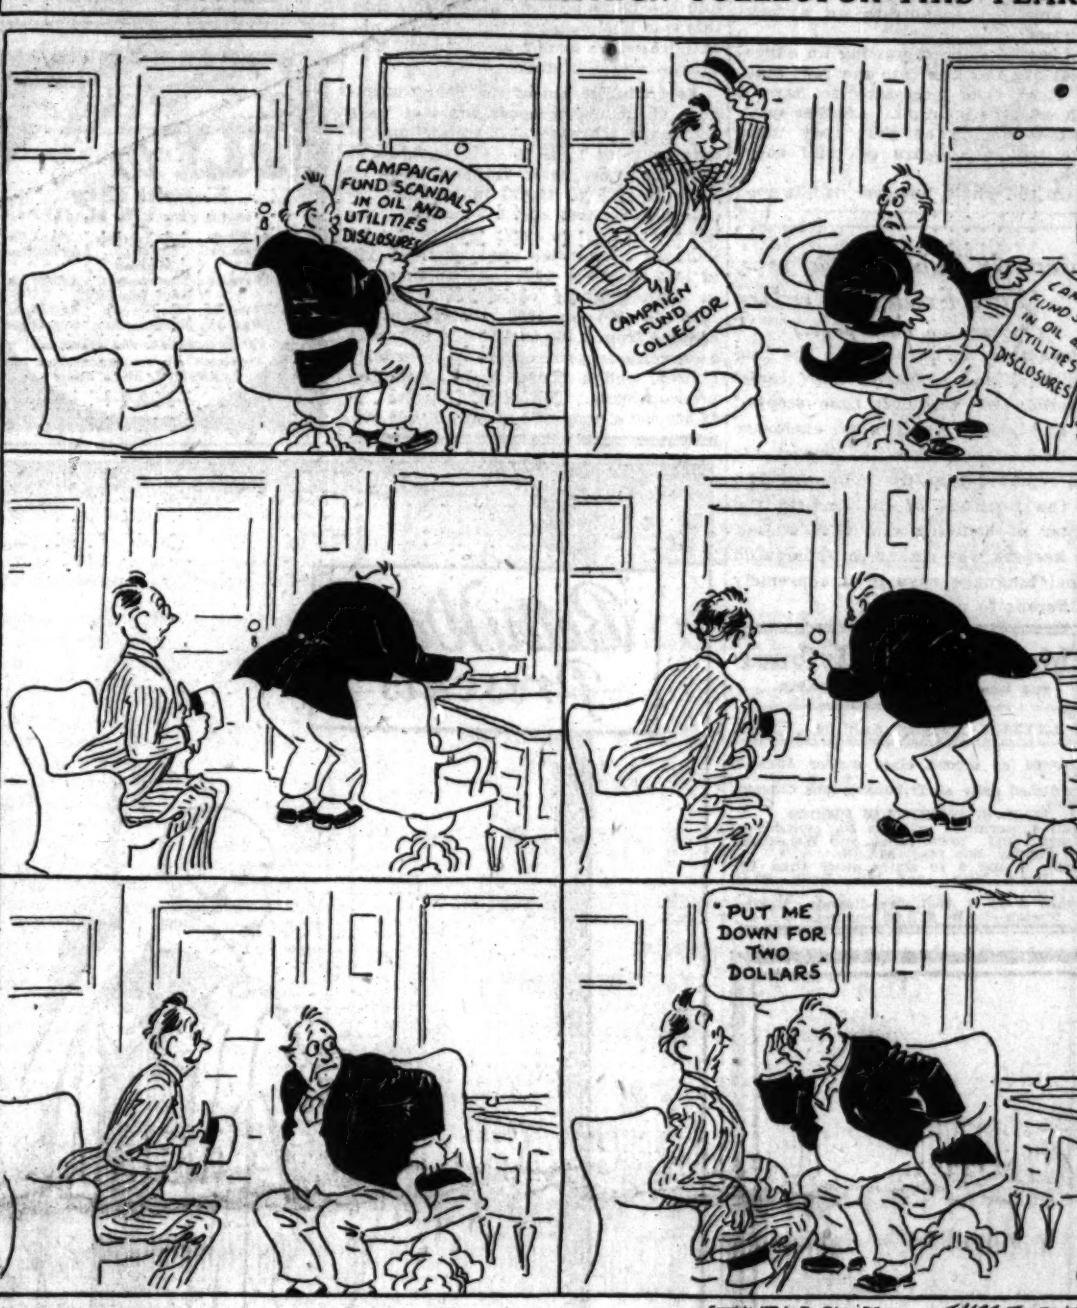

According to the plan made by Koehl and Fitzmaurice, before the latter came on here for help, the Bremen, first of all is to be repaired and flown off the reservoir to the best sea ice. She was to be stripped of everything not needed for the short hop, as it was certain she could not take off with a full load from the short runway where she is.

Chamberlin to Greet Germans.
(Chicago Tribune Press Service.)
LAKE STE. AGNES, Que., April 23.—Clarence D. Chamberlin, first New York to Germany flyer, swooped down on the thawing snowfield here today at 4:15 p. m. in a plane chartered by the New York News to extend the welcome of America's trans-Atlantic aces to the beleaguered crew of the Bremen.

Bennett Flights for Life.

QUEBEC, April 23.—Floyd Bennett, who piloted the first plane over the north pole and flew from Detroit to Murray Bay to help the crew of the Bremen, marooned at Greenly island, now in the Jeffery Hale hospital here, is fighting for his life. He has double pneumonia and pleurisy. Oxygen is being used.

HARD SLEDDING FOR THE CAMPAIGN COLLECTOR THIS YEAR

Hunt Rapist
as Life Term
Is Approved

(Picture on back page.)

Deputy sheriffs were skeptical yesterday about their chances of finding Frank Egan, 23, who must serve a life sentence in the penitentiary for attacking a 23 year old girl nearly two years ago. The criminal court was notified yesterday that last Saturday the Supreme court upheld the unusually severe sentence imposed by Judge Emanuel Eller when Egan was convicted of rape.

Egan was held without bail after Judge Eller imposed the sentence fixed by a jury, but the Supreme court when it decided to take jurisdiction ordered a bond of \$20,000. Egan gained his liberty in January on that bond.

Girl Crippled by Attack.

The case was not tried for nearly a year after the crime was committed because of the physical condition of the girl. At the time of the trial she had to be carried into the courtroom and held in the witness chair so that she would not topple to the floor. She was afflicted with St. Vitus' dance and creeping paralysis as a result of the attack.

Egan maintained an apartment at 4428 South Park avenue to which it was charged during the trial he enticed young women he met at dance halls and beach parties. There he kept a plentiful supply of gin.

The Criminal court judges expressed gratification yesterday over the decision in the Egan case as well as the two others. In each case the Supreme court refused to act on technicalities raised by the defense.

One of the principal issues in the appeal of the Egan case was the charge that Judge Eller prejudiced the rights of the defendant by questioning the defense witnesses. The judge in the trial frequently did take a hand in the proceedings when he regarded the defense witnesses as evasive in their replies. The judges heretofore have been fearful of reversals by taking part in examination of the witnesses, and the decision in the Egan case is hailed as allowing more liberty to a trial judge.

Supreme Court Upholds Judges.

"We have examined the comments of the court and the questions asked by him and the answers given, and we do not see how the conduct complained of prejudiced plaintiff (the defendant) in any respect," the Supreme court said in upholding the life sentence, adding:

"It is apparent that Miss Kraus

THE WEATHER

TUESDAY, APRIL 24, 1928.

Sunrise, 6:55; sunset, 6:41; moon sets at 12:31 a. m. Wednesday. Venus, Jupiter, and Saturn are morning stars. Chicago and vicinity: Mostly fair Tuesday and Wednesday, but with some clouds; not much change in temperature; moderate winds, mostly north-east. Illinois: Partly cloudy to cloudy Tuesday and Wednesday; not much change in temperature.

TEMPERATURES IN CHICAGO

MAXIMUM, 9 A. M.		MINIMUM, 8 A. M.	
3 a. m.	39	Noon	46
6 a. m.	37	3 p. m.	46

Mean temperature, 42; normal, 50; excess since Jan. 1, 177 degrees.
Precipitation, none; deficiency since Jan. 1, 2.30 inches.
Barometer—7 a. m., 29.84; 7 p. m., 29.80.
Highest wind velocity, 19 miles an hour from the northeast, at 10:05 a. m.

[Official weather table on page 24.]

(A defense witness) was evading the questions of the prosecuting attorney, and the repeated admonition of the trial judge to her to give responsive answers was justified.

In the case of Frank and Carl Moretti the Supreme court upheld the contention of Judge Harry B. Miller that it was not necessary for him to spend time to listen to a lengthy argument for a new trial. The judge in that case refused to listen to an argument and imposed sentence of one year to life immediately after the finding of the jury was returned in court. They were convicted of binding several watchmen and robbing the office of the Druley-O'Brien Coal company on Jan. 24, 1927.

ENVOY ASKS U. S.

SEND WARSHIP TO

CHEFOO, CHINA

Washington, D. C., April 23.—(By The Associated Press.)—The immediate dispatch of an American warship to Chefoo, was recommended today by the American consul Webber. His cablegram said that although the situation was outwardly quiet, the authorities feared the seizure of Chefoo by bandits in view of the imminent collapse of the Shantung government. He said all Americans in the interior were advised Friday to come to Chefoo. He said a Japanese warship was standing by and that the British consul also had requested naval protection.

Eleanor Sears

Steps 74 Miles

in 17 Hours

(Picture on back page.)

Boston, Mass., April 23.—(By The Associated Press.)—Miss Eleanor Sears walked 74 miles from Newport, R. I., to Boston today in 17 hours and 15 minutes.

Soaking wet, with her wide brimmed hat dripping water, she ran lightly up the steps of her Beacon street home here at 8:15 tonight.

She had started at 4 a. m. from the Newport casino.

The last 25 miles of the walk

was through rain. Three men paces were fairly well used up when the trip ended and Miss Sears developed a perceptible limp in the left foot.

Her response to queries as she swung down the homestretch were: "I feel very well," "no, I never felt like quitting" and "I did it just for pleasure."

A beach wagon, carrying her chauffeur, a maid, thermos bottles of coffee, sandwiches, extra walking shoes and stockings, followed Miss Sears over the route, as did a roadster.

A crowd of several hundred greeted her at the finish.

Only two stops were made, one in Taunton, the half way mark, at the home of a friend for rest and food.

PULLING GIRL'S

TOOTH LEADS TO

KIDNAP SCARE

The whole police force went scurrying about seeking kidnappers yesterday simply because four year old Geraldine McLaughlin had a tooth pulled.

Joseph McLaughlin, Geraldine's father, took her to the office of Dr. Keuben Olson's 35 West 78th street. When the tooth had been extracted there was, of course, the usual bleeding and little Geraldine was in tears. So her father placed Geraldine in the rear of his car, sat down beside her and held a handkerchief over her mouth, at the same time telling his son to drive them home fast.

Some one passing saw the automobile speeding to the McLaughlin home at 7843 Avalon avenue, saw the weeping child and a man with a handkerchief pressed to her mouth. That some one called the Grand Crossing police and told them of the "kidnap." Some one else saw the same thing and thought the same thing and took the license number of the car.

A message to watch for kidnappers had been sent to every police station in the city and all detective bureau squads had been put on watch before the license number was traced down and the whole thing explained.

Crucial Vote
Cast Today in
Three States

Washington, D. C., April 23.—(By The Associated Press.)—Primaries tomorrow in Ohio, Pennsylvania and Massachusetts will determine the makeup of powerful delegations to the Kansas City and Houston conventions that will be in position to exert considerable influence in the selection of the presidential nominee.

In addition, delegates from Alaska to both conventions will be selected at a primary, and in party conventions Oklahoma Republicans will round out their delegation of twenty. The nine Republican delegates from Nevada will be chosen, and the Democratic delegation of twenty from Kansas will be designated.

Ohio In Limeright.

Judged from the number of delegates to be selected, it will be the banner day of the pre-convention campaign. Nearly 200 Republicans and 188 Democrats will be added to the convention rosters. Ohio, because of the heavy centering around the presidential candidacy of Secretary Hoover, is in the political limeright. The Hoover forces are making a fight for the state's fifty-one Republican delegates against an opposition state originally pledged to the late Senator Frank B. Willis.

The Democratic organization in Ohio, facing contests in only two districts, has a slate of forty-eight delegates in the field committed to former Senator Pomeroy as first choice. Before the balloting at Hamilton centering over it may be lined up for Gov. Donahoe, who is not an avowed presidential candidate, or throw its support to Smith of New York.

Smith Claims Pennsylvania.

The Republican and Democratic delegations from both Pennsylvania and Massachusetts will go to the convention unimpaired. Heading the Kansas City delegation of seventy-nine from the Keystone state will be Secretary Mellon. He has kept silent as to his presidential preference, but is expected to have a big part in determining the Republican nominee. The Smith forces are claiming the bulk of the Pennsylvania Democratic delegation of seventy-six.

Massachusetts, home state of President Coolidge, will have a representation of thirty-nine at the Kansas City convention and thirty-six at Houston. The Hoover managers predict the common secretary will have the support of at least twenty delegates from the Bay state on the first ballot, probably more if he makes an impressive showing in the preferential balloting. Smith's adherents are claiming the entire Massachusetts delegation.

Rhode Island Goes to Smith.

Providence, R. I., April 23.—(By The Associated Press.)—Rhode Island Democrats today elected 20 delegates to the Houston convention, instructed to vote for Gov. Smith for President "to the last." The state is headed by National Committeeman Patrick H. Quinn.

GIRL KILLED, FOUR

HURT, WHEN AUTO

AND TRUCK CRASH

Miss Eleanor Tulley, 15 years old, 5726 Kimbark avenue, was killed, and her sister, Virginia, 21 years old, and a man believed to be Joseph Wales, 4428 Lowe avenue, were so seriously injured they are not expected to live when the automobile in which they were riding crashed into a milk truck at 47th and State streets early this morning. Two other men, Frank Lavelle, 3030 Union avenue, and John Moynihan, 440 West 44th street, a policeman, also in the car, were less seriously hurt.

Wales was driving the car when it struck a truck owned by the Peacock Cartage company, driven by Peter Mangiaris, and hauling milk for the Murphy-Ward Dairy company. The Walter's machine struck the truck's gasoline tank and it burst into flames. Firemen extinguished the flames and Chief Horace McLane of the 16th battalion sent the dead girl and the injured to the Lying-in and Chicago hospitals in fire wagons. At the latter place it was believed Wales' neck was broken.

[Other automobile fatalities: page 6.]

SAYS NEW HARD

STEEL FOR AUTOS

WON'T WEAR OUT

(Chicago Tribune Press Service.)
PARIS, April 23.—The modern automobile industry will be revolutionized by new nitrate steel, which does not wear out. Prof. Guillet, director of the Central Engineering college, told the Academie des Sciences today.

Chrome or nickel steel is like putty as compared with the new product, Prof. Guillet said. He produced figures from tests showing that an automobile cylinder cast from steel was worn 40 per cent after 10,000 kilometers (11,630 miles), while a cylinder of nitrate steel was only 2 per cent battered. Cylinder linings will be dispensed with in the future, Prof. Guillet said, both in automobiles and airplanes, and oil consumption will be cut two-thirds.

Tells of Fearing Death.

Mrs. McGee told of going with Newmark several months ago for a ride in the automobile of Julian (Patsy) Kaufman, long known as a companion of gangsters. She said Newmark whispered to her during the ride that he feared he was going to be killed, and that he slipped a pistol into her hand. Kaufman, as a result of this story, is to be questioned. He will several others whose names were found in a small book in Newmark's possession when he was shot down. One is Ralph Norris, 6113 1/2 Ellis avenue.

QUIZ WOMEN
AND MAN AFTER
SEARCH OF CITYHunt Ex-Convict as
One Suspect Is Held.

CRIMINAL COURT.
Edwin T. Motley, embroiled (changed to false pretenses), sentenced to 1 year in the Bridewell by Judge John P. McGorty.

(Pictures on back page.)

Detectives last night raided the grocery of Joseph Nicolosi at 1008 Cambridge avenue and arrested three men in connection with the murder early yesterday morning of Ben Newmark, 7316 Merrill avenue, former assistant state fire marshal. The information on which the arrests were made was given by two women.

One of the three suspects, Tony Ferrara, 26 years old, 1145 Larrabee street, was held for further investigation. He was kept in the detective bureau while the women whose statements caused his arrest were sent to the Hyde Park police station for the night.

Ferrara's father, Angelo, who has eleven children, and Nicolosi, an uncle of the youth, satisfied the detectives that they knew nothing about the killing and were released. Fourteen years ago Nicolosi was tried on a charge of kidnapping a child of Italian parents, but was acquitted.

Traced Through Phone Call.

The women, who came into the case through a phone call made to the Newmark home and traced to them, are Mrs. Cecelia McGee, also known as Peggy McCoy, 3319 Geneva terrace, and Miss Susie Gere, 484 Denning place. Mrs. McGee was, according to her own statement, "a dear friend of Ben Newmark" and Miss Gere an associate of Tony Ferrara.

On March 31, Mrs. McGee told Deputy Police Commissioner William E. O'Connor, Ferrara was arrested on a charge of stealing an automobile. Miss Gere, whom she knew, appealed to her to save him from prison, and she suggested that her "dear friend, Newmark," with whom she had frequently gone on cabaret parties, was the man who could fix things.

So the two women went to Newmark and he agreed to take over the assignment for \$500. Ferrara's father, despite his large family, furnished the amount, it was said.

Call for \$2,000 More.

The case came up and was continued and Newmark meanwhile decided that he must have \$2,000 more to stop prosecution. All this was told by the women, who are slightly under 30 years old, and corroborated by the three men who were taken into custody.

The Ferraras had no more money and they asked Nicolosi to aid. He declined and Newmark got only the \$500. Feeling that there was a possibility Tony might have felt he was cheated, and remembering that two pistols and a rifle had been found in his home shortly after his arrest, the police decided to keep him under lock and key.

"This is but one angle of the investigation," said Deputy O'Connor, "and there are several other clues we are paying close attention to. Important developments may be expected in the morning."

Tells of Fearing Death.

Mrs. McGee told of going with Newmark several months ago for a ride in the automobile of Julian (Patsy) Kaufman, long known as a companion of gangsters. She said Newmark whispered to her during the ride that he feared he was going to be killed, and that he slipped a pistol into her hand. Kaufman, as a result of this story, is to be questioned. He will several others whose names were found in a small book in Newmark's possession when he was shot down. One is Ralph Norris, 6113 1/2 Ellis avenue.

A multiplicity of clues confronted the investigators during the day. But it was estimated that a score or more of gangsters and criminals had ample reason to wish the death of Newmark and the police were at a loss to choose the particular motive that resulted in his assassination.

One of the men most sought was Santo Jemelli, counterfeiter, who was sent to the federal prison several years ago after conviction on a charge of manufacturing government war stamps. Newmark was indicted as a member of the counterfeiter's ring, but drew a separate trial from the rest of the body of defendants and was never convicted.

The government used only mild efforts to put Newmark behind the bars in this case, and there were strong

believed reports in the underworld to the effect that he had given a confession implicating the others in order to save himself.

Jemali, reportedly the man who actually made the stamps that Newmark was alleged to have disposed of, was released from prison only a few weeks ago and has since been in Chicago, according to information reaching the police.

The underworld had it, too, that Newmark kept the profits of the illegal dealings as well as aiding in the imprisonment of his cronies.

It was recalled that there had been two other shootings, both of government witnesses, in this same counterfeit case. Tony Bambara, owner of the Blue House cafe, was shot and killed shortly after it became known he was going to aid the federal authorities, and Daniel Perry, a Municipal court bailiff, was seriously wounded for the same reason.

Newmark was formerly an investigator for State's Attorney Crowe. He resigned from this place and then became, officially, a private detective. He was arrested after a jury had acquitted Gov. Small at Waukegan of withholding state funds from the treasury.

During a grand jury quiz Newmark declined to answer questions as to whether he knew anything about the bribing of the jury and was sentenced, with two others, to six months in jail for contempt of court. The governor ended his duration with a pardon.

LOSE JOBS FOR GIVING UP BOOZE VESSEL TO U. S.

(Chicago Tribune Press Service.)
BERLIN, April 23.—For handing over to the American prohibition authorities the German schooner *Proserpina*, laden with spirits, to get a \$65,000 reward, the Hamburg maritime court today withdrew the papers of Capt. Thode and Mate Petersen.

The ship was consigned to Vancouver on its papers, but the captain and mate believed this was a blind to cover up the United States as the destination, so they had a talk with the American consul general at Hamburg. The latter is alleged to have given them a letter of introduction to the authorities at Colon, in the Panama Canal Zone, who advised the men to take the ship to New Orleans, give it up to the prohibition officers, and claim the reward. On discovering the real facts, the New Orleans authorities released the ship, which proceeded to Vancouver.

State Reopens Hearings on Board of Trade Warehouse

All branches of the grain trade will be represented this morning when the Illinois commerce commission resumes the hearings of the application of the Chicago Board of Trade for a license to operate its new warehouse corporation, as authorized under the warehouse act passed by the last session of the legislature.

What's Wrong with Our Municipal Court? "America First Politics," Says Justice Olson

BY PHILIP KINSLEY.

"What's the matter with the Municipal court?" Chief Justice Harry Olson was asked yesterday.

"Too much America First," was his instant response.

"Is that all?"

"Well, that's quite enough, isn't it? Too many judges afraid of votes, afraid of some alderman, doing the bidding of the Crowe-Thompson organization."

"There are 21 of them now allied with that organization. They were not all in Springfield and I am proud of the fact that those that did go kept still. There were some judges of other courts there who did a lot of talking."

There was a time when the Democrats had 21 members of the court, but they never played the political game as these others have. The only thing I can do is to shift them out frequently, and put the Democrats in for the original branches.

Politics as it is played.

"I first ran into this America First organization when they raided the courts for the jobs of 30 probation officers, many of them men and women of long experience, capable persons who were ruthlessly shoved out because the organization, I suppose, ordered the judges to vote that way. They ran it a little too far and angered Ald. John S. Clark, A. J. Cermak and the Polish people because of the people they fired. Ald. Clark held up the pay

of the new officers for three months, the Poles hollered and Cermak hollered, and the three men they wanted had to be put back.

"Then they decided to get 50 new clerks on. I told them we did not need them. They went to James A. Kearns, the court clerk, and made a deal with him that he was to get 20 and the organization 30. I told Kearns it would not do and he said the judges would not vote any clerks if they could not have their way. I told him this was a criminal conspiracy and if they tried to carry it out I would have them all arrested. So that was stopped."

Court System Gets O. K.

"The Municipal court system is all right, the best in the world, and has been copied by 39 cities, who have studied our results. The record for 1927 shows a total of 434,818 cases filed and 427,366 disposed of. You get action in this court within five days. The quality of judges, however, has been deteriorating in this as well as in other courts. There are men in the other courts who do not know their business and judges in this court not able to concentrate on a legal argument."

"I would suggest putting an educational qualification into the law, making it at least necessary to have a high school education. Another qualification should be that they must have had five years of trial court work."

"On the whole, however, it is a good

court. We have a housecleaning meeting here every month and everything that has been gossiped around about the judges is brought up in open meeting. We have had some pretty rough times. The judges often criticize each other and are more often criticized by members of the bar without sufficient information. I heard of one prominent lawyer who had said that he knew of a judge who had been stealing money, making false reports. I forced him to come in here and tell me about it. It developed that he had merely overheard some one talking in a restaurant and was not even sure which judge it was.

Illustrates Power of Court.

"In the future whenever anyone reports on a judge of this court we are going to have them in here to present evidence. This court has a lot of power. We can investigate anything that touches the administration of justice under it. This would reach most anywhere. We had one run-in with a grand jury. When Judge Hansen was on the bench, the grand jury made a report reflecting on the whole court. I told the judge and the grand jury that this was libelous and that if it was not withdrawn we would sue them all. The charge was withdrawn."

As an indication of the crime situation, the court's report for last year shows an increase of burglary prosecutions from 1,505 in 1926 to 2,815 in 1927, an increase in larceny cases of \$529 in 1926 to 10,443 in 1927, an increase in robbery of 2,653 prosecutions in 1926 to 2,827 in 1927. There was an increase in murder charges from 176 in 1926 to 213 in 1927, and an increase in manslaughter cases from 198 in 1926 to 214 in 1927. Vagrancy increased from 1,103 to 4,394. There was a decrease in prosecution of disorderly houses, and a decrease in gambling prosecutions. The court takes in \$2,500,000 a year and spends \$2,500,000.

AGED WILMETTE CLOTHIER KILLED BY FAST TRAIN

Edward Sincere, 51 years old, died on the way to the Evanston hospital last night after he had been struck by a Chicago and North Western passenger train in Wilmette, where he lived with his daughter and son-in-law, Mr. and Mrs. Joseph Solomon, 1025 Ashland street.

Mr. Sincere had alighted from the 5:14 train. He had crossed the tracks to see whether his daughter, who usually met him with an automobile, was at the station, and when he saw she was not there and started to recross the tracks he walked directly into the path of a northbound express train. The engineer sounded his whistle with a terrific blast and several who saw him step into danger tried to shout warnings, but he did not seem to notice them.

Mr. Sincere was a partner in the firm of Stein & Salomon, a women's ready-to-wear dress concern at 125 South Market street. He had been married for 53 years and is survived by his widow, Clara, 55, by Mrs. Solomon, and his son, Edward Jr.

FALL FATAL TO WOMAN.

Mrs. Martha Klein, 57 years old, was killed yesterday when she fell down a shaft of stairs leading into a basement airway at the home of her daughter, Mrs. Mary B. Howard, at 4205 N. La Grange street.

Chicago's Baby Camel Is Quite Frisky for a Dry

(Picture on back page.)

Born thirteen days ago in the Lincoln Park zoo, Chicago's baby camel yesterday for the first time stepped out and frisked about in the enclosure set aside for it and its mother.

It was reported that the youngster has all the fortitude of its kind in the matter of drinking and that one of the keepers who claims to understand camel language says it is supremely indifferent to prohibition.

GOODRICH AND HOUSTON CLASH AGAIN ON JOBS

Ill feeling between Fire Commissioner A. W. Goodrich and Thomas J. Houston, president of the city civil service commission, flared up again yesterday over the dismissal of forty-five temporary employees in the fire department.

Ignoring a request by Mr. Goodrich that part or all of the employees be retained, the civil service commission ordered their removal to make way for the appointment of forty-five ex-service men who headed the list taking examinations for firemen last December.

Among those ordered fired, it was said, were the crack members of the fire department's ball team.

In a previous clash between the two cabinet heads, Commissioner Goodrich declared that some of the questions asked in the firemen's examination were absurd and threatened to resign if Mr. Houston persisted in "trying to run the fire department."

Mayor Thompson was said to have forced a truce.

Taxpayers Storm Treasurer's Office to Pay Bills

Scene in the office of County Treasurer George F. Harding yesterday when more than 10,000 persons tried to pay their tax bills to avoid the penalty which will be imposed upon them after May 1. The last tax bills were mailed Sunday night.

COUNTY BOARD VOTES TO DELAY TAX PENALTIES

Says P. J. Carr Had Way to Do It.

The county board yesterday adopted a resolution urging County Treasurer George F. Harding to extend beyond May 1 the deadline for paying 1927 taxes without imposition of a penalty. The statutes provide a fine of 1 per cent per month be assessed after that date for unpaid taxes.

Mr. Harding has not been at his office for several days and could not be reached, but his assistant, Gregory Van Meter, declared he saw no likelihood of the deadline being extended. He said that legally it was impossible. It was done, however, by Mr. Harding's predecessor, the late Patrick J. Carr, the county board was told.

Expecta Rents to Rise.

"The public is burdened enough without being soaked an additional 1 per cent," declared President Anton J. Cermak of the county board. "Rates and assessments have been hiked so much that rents probably will be affected and we're going to hear a yell from the renters as well as the property owners."

Common to Speak Today at Roosevelt Club Session

More than two hundred reservations have been made at the Roosevelt club for the regular monthly luncheon meeting of the Woman's Roosevelt luncheon club to be held today.

John A. Swanson will be principal speaker, and Mrs. Rena Elrod and Mrs. Flora G. Cheney, both Republican nominees for the state legislature, will also be on the speakers.

Cardinal Mundelein Takes Part in Two Events

Cardinal Mundelein officiated yesterday at the investiture of the Rt. Rev. J. Gerald Kealy as domestic prelate to the pope and also at a luncheon given by students of the Seminary of St. Mary's of the Lake held at St. George. The Monsignor and his guests of the cardinal at both occasions.

COATH STARTS 1,800 MILE TRIP TO ASK QUESTION

With the school calendar of business chock full of urgent matters awaiting consideration by the board of education, J. Lewis Coath, president, yesterday capoeled tomorrow's regular meeting and went off to New York on an 1,800 mile junket to ask school officials there how money may be solicited from Chicago school children to pay for a memorial to Thomas Jefferson.

Awaiting Coath's return is an investigation into the collapse of the brick wall about the Plamondon school last Thursday in which two boys were crushed to death. Seven of the thirteen children who were injured are still confined to the St. Anthony's and Mount Sinai hospitals.

A poster, dated Oct. 15, entitled "A Safety Message from the President of the Board of Education, J. Lewis Coath," was sent to THE TRIBUNE yesterday by a Chicago school teacher who points out its inconsistency in view of the Plamondon school tragedy. The poster, which every teacher was asked to display in her room, also bore a large painting of Coath.

Coath's dismissal of Cornelius Lamb, former superintendent of repairs, who last year repaired a wall at the Lane Technical High school without authority, was recalled yesterday. The wall which was much in need of repair was regarded by Lamb as a menace to the safety of the children. Coath's attack on Lamb was never fully explained.

STARTS SOLO TRIP TO AUSTRALIA

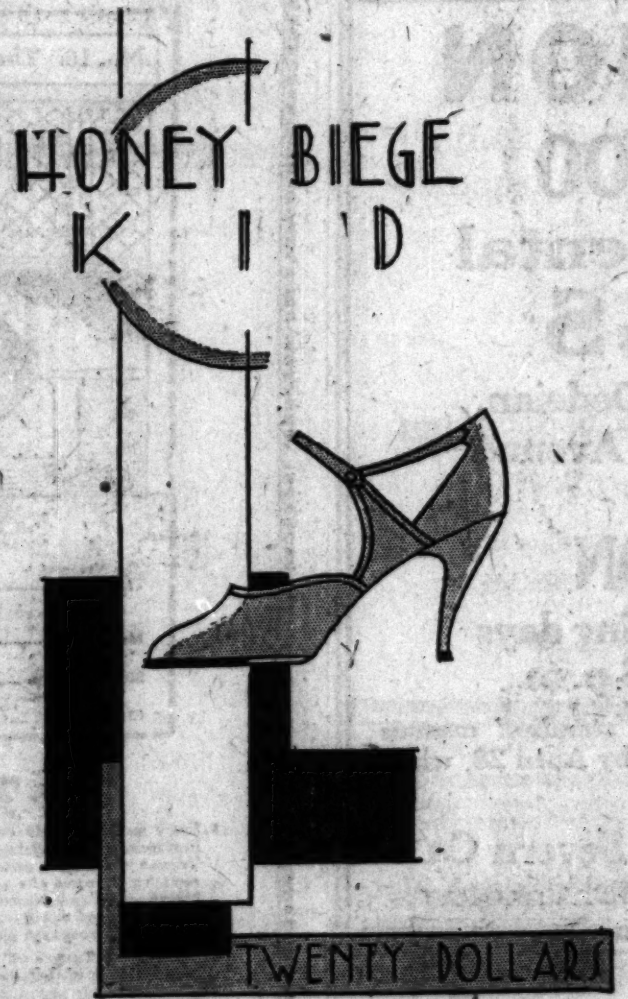

LYMPHE, Kent, England, April 23.—(AP) Another solo flight to Sydney, Australia, started here today when Wing-Commander E. B. Manning took off in a light airplane similar to that used by Bert Hinkle in his successful flight. His route will be to Marseille, Corsica, Sardinia, Tunis, and then along the usual air pathway to Australia.

WIFE COUNTERS IN SUIT AGAINST A. J. WEINSHEIMER

Alfred J. Weinsheimer, wealthy president of the McGill-Weinsheimer company, printers at 1223 South Wabash avenue, was sued for separate maintenance yesterday. The bill was described by his wife, Mrs. Alice M. Weinsheimer, 449 Briar place, as her answer to his plea for a divorce so he could marry Mrs. Cora Leonard, a divorcee, former hostess at the Edgewater Beach hotel.

Last June, according to her pleadings, Weinsheimer and Mrs. Leonard faced Mrs. Weinsheimer with a proposal that she give her husband his freedom so he could marry the new object of his affections.

Weinsheimer, a member of the Chicago Athletic, the Illinois Athletic, the

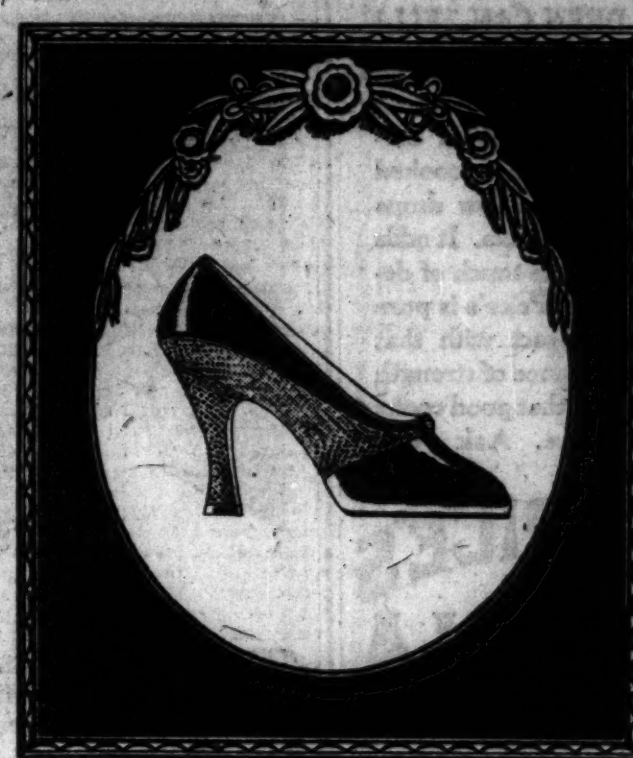

South Shore Country and the Westmoreland Country clubs, separated from his wife last summer, giving her an allowance of \$500 a month, but recently reduced this to \$200, it is alleged, "because he is squandering his \$50,000 a year income upon Mrs. Leonard."

In the second marital mixup in the courts yesterday, Mrs. Frances B. Cox of Oak Park filed a \$15,000 suit against her former husband, William F. Cox, wealthy mining and oil promoter of Douglas, Wyo.

Cox obtained a divorce in 1922, promising to give his wife \$200 a month if she wouldn't contest the suit, according to Attorney Baer. After he obtained the decree, he broke his promise, her lawyer said.

HEARDY DEBATE BLAMED FOR DEATH.

Harold Anderson, 80, who was found dead in bed in his home at 450 Milwaukee avenue, died of heart disease. It was revealed by an autopsy performed by a coroner's physician.

100,000 WILLED FRANKS FOR MEMORIAL TO SON

100,000 Estate Left Family and Charity.

Memorial to Bobby Franks, victim of the Loeb-Leopold murder, is being erected at a cost of \$100,000, according to a provision of the will of Jacob Franks, which was admitted before Probate Judge J. H. Turner.

The type of memorial which I desire to be erected, the will reads, "shall be one which will be a fitting memorial to the memory of my beloved son, whom I believe to have been a noble and generous man, and whose memory should be one which will give pleasure, help and encouragement to boys as he in his life gave sympathy, consideration and help to his playmates."

On May 21, 1924, and Richard and Nathan Leopold Jr., were sentenced to life imprisonment for the slaying of the 14-year-old boy.

Worth \$1,000,000.

On June 27, 1925, disbursement of an estate, estimated at \$1,000,000, was made to a retired banker, Jacob Franks, a retired member of the Chicago stock exchange, who died last Thursday after a long illness.

Mr. Franks, who was 70 years of age, died of a heart ailment, after a long illness.

His will, which was "not a will," the will reads, "not a will," but also to provide more liberal for his beloved wife."

His estate creates a \$250,000 fund for the benefit of Mrs. Franks and also mentions that her husband gave her \$50,000 during his life. She also is bequeathed houses, furnishings, works of art, and automobiles.

The bulk of the estate is left in trust for the benefit of two surviving sons, Josephine Helene and Jack Franks.

Persons named in the will are the late Abraham J. Franks, a brother; Mrs. F. Eganstein, a nephew; and Charles C. Franks and Trust company, who are given wide discretionary powers. Jewish charities of Chicago also are named.

Thirteen nephews and nieces are remembered with \$1,000 each.

QUIZ STEWART ON CONTINENTAL COMPANY TODAY

Sinclair Also Recalled to
Testify Later.

(Chicago Tribune Press Service.)
Washington, D. C., April 23.—(Special.)—Harry F. Sinclair, acquitted last Saturday of conspiracy to defraud the United States out of its Teapot Dome naval oil reserve, has been summoned to appear before the senate's oil scandal investigating committee on May 1 and tell his story of the famous Continental Trading Company, Ltd., deal.

Tomorrow the committee will have before it Robert W. Stewart, chairman of the Standard Oil Company of Indiana, and between the testimony of the two witnesses the senators hope to clear up the mystery of the Continental transaction, which seems to have figured in the Teapot scandal.

Stewart Reached Capital.

Col. Stewart arrived in Washington late this afternoon, but refused to discuss his forthcoming testimony or the committee's discovery of evidence in Chicago to indicate that he received or handled some of the Continental company's Liberty bonds.

It was admitted by the committee's investigator, who returned to Washington today, that he was unable to trace the bond coupons through the Chicago federal reserve bank, owing to the failure of the latter institution to record the registry numbers, which it received from the Continental and Commercial National bank.

Will Sinclair Answer?
Whether Sinclair, who is already under sentence to serve three months in jail and pay a fine of \$500 for refusing to testify during the original Teapot probe four years ago, will answer the senate's questions this time or even respond to their subpoenas appeared problematical tonight.

First reports were that he had been summoned to appear tomorrow, and when they were carried to his local attorney, George P. Haver, the latter declared that he would advise Sinclair, now resting at the Sinclair-Ranocosa farm in New Jersey, to ignore the summons.

When Sinclair last appeared before the committee, the existence of the Continental Trading company Ltd., out of which he drew the \$225,000 in Liberty bonds paid to Albert B. Fall, former secretary of the interior, after the Teapot probe was executed, was not known to the senators.

LUCIUS FOSTER'S WIFE CHARGES DESERTION IN SUIT

Mrs. Constance Robertson Foster yesterday filed a bill in the Circuit court for divorce from Lucius F. Foster, wealthy member of a paper manufacturing firm. Cruelty and desertion are the grounds alleged.

The couple, according to the petition, were married in April, 1918, while Mr. Foster was a student at Yale university. The marriage was kept secret until after the war. Two children, Alice, 7 years old, and Lucius Jr., 3, were born to the Fosters. The family home is at 1851 North State parkway. They have also a summer residence at Mackinac Island.

Last November Mrs. Foster reported to the police that a traveling bag containing jewelry valued at \$45,000 had been stolen from her in Buffalo, N. Y., where she was visiting. On returning to Chicago she found that a maid had neglected to place the gems in a traveling bag and that they were safe.

Three Killed as They Leap
from Blazing Tenement

New York, April 24.—(Special.)—Three persons, a man, a woman, and a young girl, are reported dead in a swiftly burning fire which trapped many persons in the four story tenement at 244 Stagg street, Brooklyn, shortly after 1:30 a. m. today. The three died in jumping from the windows of the burning building. Firemen saved many more.

Evanston Boy Blinded as
Golf Ball Acid Explodes

Explosion of acid in the center of a golf ball into which he cut with a piece of glass yesterday temporarily blinded ten year old Frank Airth of 714 Madison street, Evanston, and may affect his eyesight permanently, physicians at St. Francis hospital, where he was given treatment, said last night.

ENDS LIFE BY TAKING GAS.

John Nelson, 34 years old, a carpenter, committed suicide in his home at 8054 Chicago avenue, by inhaling gas.

HARVARD BOAT WRECKED; TWO MEN DROWNED

Cambridge, Mass., April 23.—(AP)—The Harvard launch Red Top, on its way from Greenport, L. I., to the Harvard crew quarters on the Charles river, has been lost with its crew of two men. The body of James W. Hussey of Greenport drifted ashore near Scituate. The other occupant of the boat was J. Dimon.

Coast guards expressed the opinion that the men lost their way in the heavy fog while on a close to the shore course and the boat was dashed to pieces against the rocks.

FISHING BOAT FOUNDERS; 7 DEAD.
SAN SEBASTIAN, Spain, April 23.—(AP)—Seven men of the crew of the fishing smack Calingsucho perished when the boat foundered on the rocks.

Liquor Injunctions Issued Against 28; Seek Padlocks

Temporary injunctions against twenty-eight places charged with violations of the prohibition laws were issued yesterday by Federal Judge George A. Carpenter. Assistant United States District Attorney Edgar Elder announced that steps to padlock the places will be instituted shortly. Among the places are the Hunter's Country club, 2340 North Halsted street, Andrew H. Almer, owner; and the Birchwood Pharmacy, 1542 Jarvis avenue, Jacob Bensch, owner.

FLYER KILLED IN AIR COLLISION 9,000 FEET UP

San Antonio, Tex., April 23.—(AP)—Cadet James Scott Henderson of Georgia, Ind., was killed here today when his army airplane collided with another plane 9,000 feet in the air and plunged to earth.

Cadet Douglas M. Swisher, Seattle, pilot of the second plane, leaped to safety in his parachute after falling almost 3,000 feet in his disabled craft. Both flyers were attached to the advanced school at Kelly field.

RECOGNITION Through the Years

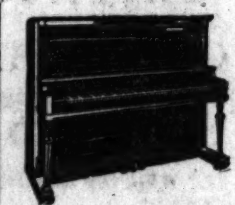

THE widespread favor won and held by the Kimball piano has been a natural, logical growth extending over many years.

In this gradually acquired prestige is heard the spontaneous praise of many thousands of owners, expressed in many forms, in widely separated parts of this continent.

The recognition enjoyed by the name

KIMBALL

gains a measurable significance and an added force from every instrument that leaves our factories.

The Chicago Tribune's Second Set of "SONG TITLES"

617 More Big Cash Prizes for Best Answers!

No. 16. The Chicago Tribune's Second Set of "SONG TITLES"

CLUE: When children reach a certain age they seem to be hungry all the time. No wonder there are so many tummyaches. Kinda makes your mouth water, too, doesn't it?

MA. KIN I HAVE A PIECE? YES

Write Song Title Here

The Name of This Song Is

My Name Is

Street Address

City

State

THE RULES:

- Every weekday for 40 consecutive days, (not including Sundays) the Chicago Daily Tribune will print a cartoon picture representing the name of a popular and well known song or an old favorite melody. The public is invited to cut out these cartoons and name the songs the pictures represent.
- The Chicago Tribune will pay \$5,000.00 in cash prizes to the persons sending in the nearest correctly named and nearest complete sets of pictures as follows: 1st Prize, \$1,000.00; 2nd Prize, \$500.00; 3rd Prize, \$100.00; next 4 Prizes (\$25.00 each) \$100.00; next 100 Prizes (\$10.00 each) \$1,000.00; next 519 Prizes (\$5.00 each) \$2,595.00. A total of 617 Prizes, totaling \$5,000.00.
- This game is open to everyone, everywhere—men, women, boys and girls—except employees of The Chicago Tribune and their families. It does not matter where you live.
- You pay nothing. Just prove your skill. Accuracy will count. Neatness will count. Song titles are to be submitted only in complete sets. Hold all pictures until you have the complete set of 40. Then send them to "Song Titles," The Chicago Tribune, Post Office Box 1529, Chicago, Ill. All entries must be in by midnight 15 days after Picture No. 40 has been printed.
- Each entry must be sent in by first class mail—postage prepaid. Entries with insufficient postage will be returned by the Post Office Department. At the end of the contest we want you to tell us the names of your favorite song—the one you like best of all—and why.
- Contestants may send in as many sets of this Second Set of Song Titles as they wish, but no contestant will be entitled to more than one prize.
- You need not purchase the Chicago Daily Tribune to compete. You may copy or trace the cartoon pictures from the originals and use the copies you have made. The Chicago Tribune may be examined at any of its offices or at public libraries free of charge.
- The judges will be a committee appointed by The Chicago Tribune. Their decision will be final. In case of a duplicate award will be paid to each prize contestant.

new home provides a valuable text on how to solve the South Park way problem. It is bound, even amid its present forlorn surroundings, to draw good neighbors.

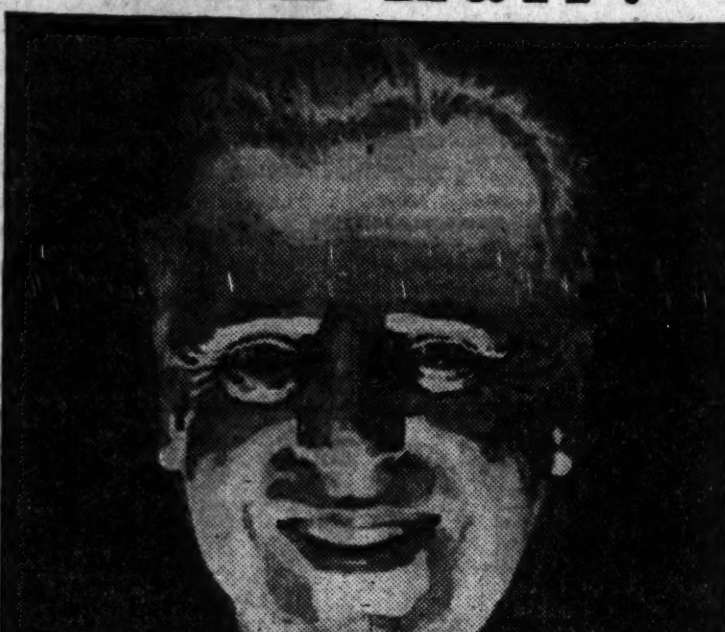

At 2508 South Park way, on the west side of the street, Becker, the cleaner and dyer, has established one of his numerous branches in a small structure that is a delightful bit of old Boston—a colonial design that is quaint and yet not silly for a business premises. And now, when Mr. Becker will plant some shrubs along the east front of his building and obliterate the huge, ugly sign that bleaches its north wall, he, like the Wheeler company, will have something wholly charming.

In the twenty-five hundred block George F. Iliff, the real estate man, has a seemly building with agreeable roof lines. It is modest, but it sounds no negligible note in the start toward a rehabilitated South Park way. It is almost opposite the proposed site for the American Athletic club, which, if ever it breaks ground, will sound the big and probably decisive note of the rehabilitation.

It's Street Marking Time.

That is what is the matter with South Park way. It is marking time. It has seen enough of "drives" to know that all of them are a bore and most of them futile. But what South Park way needs is a "now" drive to buck up the white men who own the abutting property. I think the Wheelers and Mr. Becker and Mr. Iliff are worthy pioneers in an important movement, but big business ought to jump in with them—jump and not dream. The great Lakeside Press, whose vast and artistic plant commands the north end of the Park way has dreams of luring high class publishing houses into the twenty-three hundred block and so on southward, and into the superb plaza—potentially superb—formed by the entry into South Park way of 23d street, 26th street and Cottage Grove avenue. It is a plan that will be capable of magnificent monumental treatment owing

WILKINS ENDS ESKIMO'S MYTH OF ARCTIC LAND

Flies Over Sea of Ice and
Vast Snowdrifts.

By CAPT. GEORGE H. WILKINS
(Copyright, 1928, in the United States,
Canada, South America, Mexico, Cuba, and
Central America, by the New York
Times company. Copyright, in Great Britain
and Ireland, by the London Times.)
[By Wireless to the New York Times and
the Chicago Tribune.]

GREEN HARBOR, Svalbard (Spitz-
bergen), April 23.—While the interest
of the Detroit News-Wilkins arctic
expedition was primarily aeronautical,
the principal object of the flight was
to discover whether, in the unexplored
area of the polar sea, islands existed
on which a meteorological station
might be placed. Our nonstop flight
served that purpose.

From the experience I had gained I
decided the machine for the job should
be the lightest and fastest one cap-
able of withstanding extreme con-
ditions and rough usage, affording
snow proof shelter on the ground, and
supplying material for boats or sledges
in an extreme emergency and
furnishing fuel. Its wood construction
has eliminated confusing compass in-
terference as is the case with metal
machines.

Carries Two Compasses.
The pilot's instruments included two
compasses, one fast moving and one
slow; two altimeters, turn and bank
indicators, fore and aft air speed
indicator and the usual engine instru-
ments for the navigator. These in-
cluded one large ship's compass, an
English air force bubble sextant, a
pocket sextant, four special watches,
a drift indicator, course and distance
calculator, nautical almanac, special
charts and tables prepared by the
American Geographical society.

Shipped from Los Angeles, the plane
reached Svalbard, Alaska, on schedule
time. There we experienced the first
setback. Snowdrifts blocked the rail-
way, delaying arrival at Fairbanks for
one week. At Fairbanks, in tempera-
tures of 40 degrees below zero, the
plane was tested in Arctic conditions.
Many slight adjustments were neces-
sary, but three weeks' experimenting
put everything right.

Eskimo Women Make Clothing.
From Fairbanks our route lay over
the rugged Endicott range to Point
Barrow, 500 miles. A forced landing
on this flight would be more trouble-
some than a landing on the Arctic
ice. The flight to Point Barrow was
uneventful. I had covered the route
fourteen times before.

The plane stood on an Eskimo play-
ground on the lagoon at Point Barrow
while our Arctic equipment, taken to
Point Barrow in 1926 and used that

POLAR FLYERS WILL COME HOME BY BOAT WHEN ICE BREAKS UP

OSLO, Norway, April 23.—(AP)—Capt.
George H. Wilkins, the trans-polar
flyer, advised from Green Harbor that
he had decided to leave for Norway by
steamer from King's Bay at the ear-
liest date possible.

Since reaching Green Harbor Capt.
Wilkins and his pilot, Ellison, have
spent their time mostly indoors rest-
ing. Capt. Wilkins has been kept
busy writing a report of his flight
over the polar regions. He talks little
and is not willing to reveal his future
plans. Ellison is attempting to repair
the damaged under part of the air-
plane.

The first available boat for Norway
will probably not sail before the mid-
dle of May, when the ice breaks up.
The explorers, to reach King's Bay
for embarkation on a vessel, must
travel by dog sled. It is about 80
miles air line from the place where
their damaged plane came to rest but
following the coast means a trip of
nearly 100 miles.

Capt. Wilkins may decide to wait
where he is until the flocks clear from
the island. That course would enable
him to ship his plane more easily and
the one he has is as likely to clear
of ice as early as the other.

A flight back to Europe seems
scarcely possible in view of word that
has come from Green Harbor that the
fuel in the Lockheed-Vega plane was
practically exhausted when they
reached the place last Saturday.

year and again in 1927, was over-
hauled.

Old Eskimo women carefully exam-
ined and prepared reindeer skin cloth-
ing, rubbing and scraping them until
soft as velvet. The younger women
stretched with their teeth and strong
arms our seal skin boots and mittens
until they fitted perfectly. Old Es-
kimo men, experienced hunters, sharp-
ened our seal spears, fashioned ice
picks and whittled apparatus for re-
trieving dead seals from the water.

Destroys Myth of Northland.

"If your machine falls," the old
men said, "you must walk to a land
visited by one of our ancestors. We
walked over the ice to Ast, saw new
land and people, and was tattooed on
the back to prove it, but our fathers
did not know whether to believe him.
Perhaps you'll prove the old man was
right."

Our flight did not bolster the old
men's story.

Our Arctic food supply, consisting of
chocolate, five pounds; biscuits, twenty
pounds; pemmican, twenty pounds;
malted milk, twenty-four pounds; rais-
ins, five pounds, was carefully weighed
and stored in the plane. Our primus
stoves were cleaned and tested, our
rifles were freed from oil and re-
tested on a range for accuracy; 350
soft nosed, expanding cartridges were
carefully examined, for should we be
forced down by the futhermost point
from land en route we should have to
depend on our knowledge of Arctic sea
ice hunting for perhaps eighteen
months.

Our sounding gear, sonic depart-

DINNER ATTENDED BY 4,700 PLANNED FOR SEA FLYERS

Forty-seven hundred people will at-
tend the banquet planned in honor of
the Irish-German crew of the trans-
Atlantic plane Bremen during their ex-
pected visit to Chicago. It was an-
nounced yesterday from the office of
George Gots, chairman of the mayor's
citizens committee.

The banquet will be held in the
Stevens hotel the evening of the day
the flyers arrive here under the joint
auspices of the citizens committee, the
Chicago Association of Commerce, and
the south park commissioners. It will
be strictly informal. Tickets will sell
for \$1.50 each. Persons wishing to at-
tend are asked to send their reserva-
tions to C. W. Judd, chairman of the
arrangements committee, at the asso-
ciation of commerce.

A big parade through the loop and
a celebration at Soldiers' field has been
planned for the afternoon of the fly-
ers' arrival.

A new feature of the reception, an-
nounced yesterday, will be the forma-
tion of the word "welcome" in Ger-
man by 1,000 women in German cos-
tume assembled in the stadium. The
huge letters will be visible to the
Bremen crew from the air as they
fly over Grant park.

Some obstruction to prevent the drift
to the eastward.

Fly Above Cloud Belt.

We came to the obstruction in the
form of a neighborhood where old,
preferably land-fast ice had been re-
ported. We saw conditions that might
indicate this was so. Rounded hum-
mocks of clear ice glistened in the
sun. It looked at its center as solid
as a glacier, but the rounded hum-
mocks were unquestionably sea ice.

The snowdrifts were blanketed clouds,
probably the result of conflicting
winds in that locality. The wind above
the clouds was from the northwest.
The clouds seemed stationary. The
general wind direction was judged
from the few miles of old pack ice
before going above clouds, was from
the northwest.

Meeting clouds in that interesting
point was exasperating. Land in that
vicinity would best suit our meteor-
ological plans. What lay beneath that
120 mile belt of cloud is still a secret.

When the surface beneath us cleared
it was seen to be old, heavy pack-ice.

Doubts There Is Land There.

For the next 200 miles we crossed
much young ice, leads, and ordinary
pack that apparently drifted back
and forth between the old pack ice
had crossed and some heavier ice to
the north.

We came to that old heavy-rigid
ice. Perhaps that old ice mass rests
on terra firma and is stationary, but
my decision, judging from the fact
that no great pressure ridges were
noticed at its edges, is that it is
floating.

The wind in that vicinity was be-
hind us, in the direction from which
we came.

A storm center had formed, but we

YOUTH IS KILLED AS FRIEND TESTS NEW CAR'S SPEED

Auto Topples Over as Its
Brakes Are Applied.

Fred Krueger, 20 years old, of El-
gin, Ill., died yesterday the victim of
a demonstration drive of an automo-
bile owned by his friend, William Plote,
24, of Burlington, Ill.

Krueger and Plote, with two other
friends, Arthur Luecke, 29, of Burling-
ton, and John Tettinger, 23, of Elgin,
were attending a dance at Schaumburg,
ten miles east of Elgin. They decided
to put Plote's 1928 car through its
paces. It had the speed advertised,
but when the brakes were applied sud-
denly it turned turtle. All but Krueger
escaped serious injury.

Toll Raised to 278.

This death and two others during
the day raised Cook county's 1928
motor toll to 283.

John Conley, 19, of 3316 South Wash-
tenary avenue, was killed and four
companions injured when their auto-
mobile plunged over the embankment
to the edge of the drainage canal at
South Western avenue and West 31st
street.

George Sennie, 14, of 3217 East 31st
street, was fatally injured in a col-
lision at 90th street and Burley ave-
nue driven by his bicycle and an au-
tomobile driven by Patrick Mackin, 17,
of 2144 Brandon avenue.

The body of Frank Freyer, 40 years
old, a roadhouse proprietor of Michi-
gan City, was found on the Dunes
highway, east of the Indiana city. Po-
lice established that he was the victim
of a motorist who did not stop.

Boys Injured.

Ralph Goss, 14, of 3225 East 93d
street, drove an automobile off a
slightly elevated alley in the rear of
3227 East 93d street, injuring himself
and two passengers, John Mancon, 15,
of 3225 East 90th street, and Mrs.
Edna Gehrt, 17, of 10922 Avenue N.

John McCarthy, 23, of 8050 Muske-
gon avenue, received a fractured skull
in a crash between his automobile
and a street car at 78th street and
Coles avenue.

WILLIAM GOGGIN HUNTS SONS.

William Goggin of Stockton, Cal., formerly
of Chicago, yesterday asked police here to
find his sons, William and Richard, 33 and
35 years old, and notify their mother
if dead.

It was, as we expected, no more
difficult, perhaps easier, than else-
where. Our bubble sextant worked
perfectly, our maps and charts were
well prepared, our plane in normal air
was steady in flight, facilitating ob-
servation. The compass, while not per-
fect, were more or less dependable fa-
cilities for dead reckoning. Nothing
more need be said for our plane and
engine than that they were perfect.

REFINANCING OF EVANSTON PAPER O. K'D BY COURT

Reorganization of the bankrupt
Bowman Publishing company, publish-
ers of the Evanston News-Index and
commercial printers, under the new
corporation of the Evanston Publish-
ing company and controlled by prom-
inent north shore business men was
approved yesterday by Federal Judge
George A. Carpenter.

The new corporation is headed by
H. Ellis Sibley, president and treas-
urer; Edwin Shramm, vice president,
and Rawleigh Warner, George B. Dy-
den, and Charles H. Stevens, members
of the board of directors. Stock to-
talling \$260,000 was issued under the
corporation papers.

All claims against the old concern
have been fully liquidated by the is-
sues of preferred stock and notes
running for five years.

ZIONIST HEAD ARRIVES TODAY FOR CONVENTION

Dr. Chaim Weizmann of Lon-
don, head of the International Zioni-
st organization and one of England's
aristocrats, will arrive in Chicago to-
day to attend the sixteenth annual
convention of the United Synagogue
of America, which opens Friday at
the Stevens hotel. He will be the
guest of a reception and dinner Wed-
nesday evening at the Palmer house, given
by members of the local Jewish com-
munity.

Dr. Weizmann, who will be the
speaker at Sunday's meeting, was
in charge of the ministry of foreign
affairs in the British cabinet in the
world war and was inventor of the pro-
cess which TNT was made adaptable
for use as ammunition.

COOLIDGE BEATS SENATE REBELS ON NICARAGUA

Teeth Are Drawn from Blaine Resolution.

(Chicago Tribune Press Service.)

Washington, D. C., April 23.—[Special.]—Five hours of stormy senate debate ended late today with an apparent collapse of the movement of radicals to rebuke the President by setting an arbitrary date for the withdrawal of marines from the Central American republic.

Just before adjournment Senator Blaine (Rep., Wis.), author of the amendment to the naval appropriation act for the withdrawal of American marines from Nicaragua by Christmas, accepted a modification which removes virtually all the teeth from his proposal.

The modification, offered by Senator Pittman (Dem., Nev.), changes the proposed legislation from a drastic interference with the President's powers to an amendment which, if passed, would have virtually no effect. It provides that the President may utilize marines for the protection of American citizens and their property in case of physical attack or the danger of such attack.

Believes Coolidge Victory.

While Senator Blaine accepted the Pittman proviso and another change which delayed the time for the withdrawal of marines from Nicaragua until Feb. 1, the senate did not act officially upon it, some of the senators asking for more time to study the language.

In view of the fact that Senator Blaine has accepted the modifications, the chances for an administration victory are believed good.

It is now pending before the

senate, the Blaine amendment places sharp limitation on the use of naval marines in foreign countries. The Pittman proviso states, however, that such limitations shall "not apply in case of actual physical attacks upon American citizens or their property, or the immediate danger of such attacks and that at any time the forces of the United States may be used by the President for strictly protective purposes without the consent of congress."

Hefflin Heard From.

A flock of other amendments curtailing the President's use of marine forces abroad were offered. These included amendments by Senator Hefflin (Dem., Ala.) and McKellar (Dem., Tenn.). The McKellar amendment would allow the President to act in an emergency to protect American life and property, but would establish the principle that congressional consent would be necessary if marines were maintained abroad for any considerable time.

Today's debate was featured by a stirring defense by Senator Swanson (Dem., Va.) of the President's decision to keep the marines in Nicaragua until after the election.

SANDINO SEIZES NEW U. S. MINE, MENACES THIRD

(Chicago Tribune Press Service.)

MANAGUA, Nicaragua, April 23.—Reports from eastern Nicaragua state that Gen. Augusto Sandino, with a following estimated at 500, invaded the Pispis mining district in north-eastern Nicaragua, on the boundary of the departments of Cabo Gracias and Prinzapolka. The bandits have occupied the Bonanza mine, owned by P. Laguarda, interests, and threaten to take over the Pispis mine, owned by a Delaware company.

Apparently during the last three weeks Gen. Sandino has moved his army 100 miles eastward, through virgin forest and over unsettled country, where, even trails are nonexistent. The nearest organization of marines to Pispis is a detachment of several hundred stationed on the coast at Puerto Cabezas, about 100 miles to the east.

It is reported that marines will be dispatched as soon as possible to protect the mining area.

PUPILS TO MARCH IN BIG CLEANUP WEEK PARADE

(Picture on back page.)

Two huge parades to quicken interest in the annual "cleanup, plant-up" campaign are being planned for Wednesday and Thursday. It was announced yesterday by William J.

Bogan, assistant superintendent of schools. The campaign, which will last two weeks, opened yesterday. Some 10,000 school children will join in a parade led by the Lane Technical high school band tomorrow.

Students of the Crane High school and Crane Junior college at 2245 West Jackson boulevard will inaugurate the cleanup campaign in their district Thursday with a parade of floats from the west park system.

THE REGENT PEAK

A Smartly Styled Suit with Double Breasted Vest and Pleated Trousers

You'll certainly feel like taking your hat off to Society Brand on this wonderful new two-button style with broad, well set-up rope shoulders. An exceptionally smart combination of the new body-tracing coat with the double breasted vest and pleated trousers. Out of the ordinary but in excellent taste. Everything about it wins instant admiration.

Society Brand \$50

Other Society Brand Clothes \$45 to \$85

IT'S THE CUT OF YOUR CLOTHES THAT COUNTS

This is REVELL WEEK!

Today Revell's offer exceptionally high quality rugs that give absolute satisfaction at extremely low prices. The rug department occupies the entire third floor and on Tuesday will offer all kinds and sizes of Oriental Rugs at very low prices.

WEDNESDAY will be Curtains & Drapery Day!
THURSDAY will be Dining Room Day!
FRIDAY will be Domestic Rug Day!
SATURDAY will be Bedroom Day!

Today is Oriental Rug Day

Revell's Oriental Rug Department is always interesting, for there is a representative collection of the finest rare antique, semi-antique and modern rugs from all the different parts of the Orient. Our prices are the very lowest considering the character of these rugs. We list some of the typical attractions below.

Exceptional Value! Persian Hamadan Rugs

Natural colors, strong, durable pieces. **\$23.75** Average size 5 feet 8 inches by 3 feet 7 inches.

Extra Quality Chinese Rugs

\$22.50 2x4	\$37.50 2.6x5	\$40.00 3x5	\$87.50 4x7	\$275.00 8x10	\$335.00 9x12
----------------	------------------	----------------	----------------	------------------	------------------

200 Persian Mosuls and Dozars
Two Specialty Priced Lots
\$39.50
\$43.75

In soft, beautiful shades of rose, blue and tan combinations. Average size 3 feet 6 inches by 5 feet 10 inches. All are closely woven for durability.

Long Oriental Rugs
\$42.50 **\$48.75**
\$55.00 **\$67.50**

Antique, semi-antique, and modern pieces in their natural colorings and quaint designs. Heavy, long nap; silky soft tone effects. Sizes range from 2 feet 8 inches to 10 feet 10 inches wide and from 8 to 14 feet in length.

Gay Numdah Rugs
Made in East India
Lovely for your summer home, sunroom and bedroom now are these gay colored rugs from East India. Most of them have the tree-of-life design hand embroidered in brilliant red, blue, violet, yellow and ivory on wool felt.
Approximate Size 3x4 feet **\$9.75**
Approximate Size 4.6x6 feet **\$18.50**

Persian Lilahan Rugs
Soft shades of rose and blue predominate. Average size 3 ft. 6 in. by 6 ft. **\$59.50**

Fine Persian Lilahans
\$45.00

All are very closely woven. Soft, beautiful tones of rose, blue and gold. Average size 3 feet, 5 inches by 4 feet, 10 inches.

Antique and Semi-Antique Persian Rugs
\$227.50

Rare rugs from the old rug weaving districts of Hamadan, Saraband, Shiraz, Fereghan, Mosul and others. Sizes range from 3 feet to 4 feet 10 inches wide and from 6 feet 6 inches to 12 feet in length.

Anatolian Mats
\$6.75

Natural colorings and quaint, unusual designs. Average size 1 ft. 8 in. by 3 ft. 8 in.

Extra Large Oriental Rug Bargains

Kind	Size	Price
Karadja	8.11x11.8	\$195.00

OLD FOES FLOCK TO SMITH; DIXIE'S BACK TO WALL

Solid South Can't Stop Him Unaided.

BY ARTHUR SEARS HENNING.
(Chicago Tribune Press Service.)

Cleveland, O., April 23.—[Special.]—And Smith goes marching on. With additional dry and hitherto antagonistic constituencies flocking to his standard, the redoubtable Al, arch foe of Volsteadism, is already within gunshot of the Democratic nomination for President.

At the close of last week he had 349 out of the 1,100 delegates who will sit in the Houston convention. When those delegates are added which, it is known, are yet to be instructed for him there will be back of Smith an aggregate of not less than 558 delegates. This is seven more than a majority of the convention, and 1754 short of the 7214 constituting the two-thirds majority necessary to a nomination in the Democratic party.

California Crucial Test.
The question now is not so much whether Smith can be nominated as whether Smith can be stopped short of nomination by acclamation on an early, if not the first, ballot at Houston. If Smith should triumph there, it would take a miracle to stop him. If McAdoo should come off victorious he would rally the dries to stand like a stone wall at Houston between Smith and a two-thirds majority.

So far the solid south, dry (politically) and anti-Catholic, has stood like a stone wall against Smith, and presumably will enter the convention no less opposed to him. But the solid south cannot stop him unaided. It will have 252 votes in the convention, but it will take not less than 347 on each ballot to keep Smith from crossing the line.

The problem of McAdoo and the other anti-Smith leaders is going to be the marshaling of at least 115 delegates outside of the solid south who will go into the last ditch with Dixie against the outstanding personality in

the Democratic party today. This will be no easy task.

Psychology Favors Smith.
Despite the fact that the convention will be held in the solid south for the first time since civil war days, the psychology of the situation will be favorable to Smith. Here you will have a man of extraordinary popularity, a man of such vote getting prowess that he has the Republican party in New York fighting with its back to the wall, the only Democrat who, as matters now stand, would seem to have a chance of being elected. This man will go into the convention with a majority of the delegates, an achievement the like of which has never been witnessed save when the party in power has renominated a President.

With the wish to win surging strongly in the souls of the Jeffersonians, they will be more than human if they long resist the temptation to join the chorus of the "Sidewalks of New York." It is under such circumstances, in national conventions that the hand wagon starts with a hurrah and a rush of erstwhile irreconcilables to clamber aboard.

And it is being whispered about that a good many Democratic leaders in the solid south are already falling over each other to assure Smith of their friendship and incidentally to remind him that a little matter like their inability to vote their delegations for him at Houston should not stand between them and proper recognition at the pie counter in the event of Al's election.

Will Stay Away from Fols.
These southern bosses want Al nominated as much as do their northern

brethren, because they feel that with him they have a chance of regaining power in the national government and they are full of assurances that the solid south will not bolt Smith in November, for all his wetness and his Roman Catholicism.

What will happen in the solid south if Al is nominated, according to the southern leaders, is that the fanatical dries and anti-Catholics will stay away from the polls in November. That will reduce the Democratic vote, but inasmuch as in most of these states the Republican vote is negligible, the Democratic candidate will still have a plurality.

On account of the stay at home Democratic vote, however, a Republican candidate for congress in a close district here and there might be able to creep through. This possibility is worrying a good many southern congressmen and constitutes the main spring of their opposition to the nomination of Smith.

Different Than in 1924.

The recent acceleration of the Smith candidacy is the result of the friendliness to the New York governor manifested by the Democrats in parts of the west that constituted the McAdoo stronghold in 1924. These were being relied on by the dries to join hands with Dixie in blocking Smith this time. Iowa, Idaho, and Washington, which voted solidly against him to the last four years ago, are solidly for Smith today.

Illinois, Michigan, Wisconsin, Minnesota, and North Dakota, which were divided at Madison Square Garden, are going to Houston solid for Smith. In

Oklahoma, which voted unanimously for McAdoo on every ballot in 1924, a majority of the delegates are favorable to the New York governor. A similar situation exists in Nebraska.

The right-about-face executed by Iowa is typical of the change among western Democrats in four years. Iowa was so devoted to McAdoo and so bitterly opposed to Smith at Madison Square Garden that its delegation refused even to vote for John W. Davis as a compromise candidate on the last ballot. It went down with McAdoo flag defiantly held aloft by Ed Meredith who within the next hour refused the nomination for Davis' running mate.

Meredith Falls to Come Through.

A few months ago Meredith was going to rally the west to block the advance of Smith. But the prairies failed to take fire for him. Then he was going to hold Iowa inviolate against the handshakes of the temper 'Al' Albany. When the prisoner was held a preponderance of sentiment for Smith was disclosed. Meredith predicted that the state convention would choose a delegation preponderantly in favor of Smith. But the state convention was overwhelmingly for Smith and instructed the delegation to vote for him at Houston until

the cows come home. Meredith is not even a delegate.

The fate of the Iowa is that of several other McAdoo leaders in the west. Others have saved their political skins only by climbing on the Smith band wagon well in advance of the primaries.

These phenomena have given rise to endless speculation among the politicians who are always watching the straws. Why are these politically dry western states, which were for McAdoo four years ago, finding it so easy to line up for Smith now? Is it due to a reaction against prohibition that does not prohibit? Or to the wish to win? Or to the lack of a successor to McAdoo as leader, in accord with the political law that you can't beat somebody with nobody? The politicians themselves are guessing.

Here in Ohio a Democratic delegation friendly to Smith will be chosen in the primary on Tuesday. The 48 delegates will be pledged to former Senator Pomerene, with George White, former Democratic national chairman, as second choice. But it is well understood

that the delegation will be switched to Al whenever it is needed.

Former Secretary of War Baker, who is a power in the Ohio democracy, is openly advocating the nomination of Smith, and both Pomerene and White prefer him to either Walsh of Montana or Reed of Missouri. Baker is viewed as a promising possibility for running mate to Smith.

Woman Driver Fined \$100 for Fleeing Scene of Crash

Mrs. Helen Bartucci, 34, of 434 Belden avenue, was fined \$100 and costs yesterday when she was arraigned before Judge Theodore Ehler on charges of fleeing from an accident. Horace Peters, 40, of 2908 North Clark street, was ordered to pay the damages to a car owned by Myron B. Fuiman of 3538 Rata avenue, which was struck by Mrs. Bartucci, driving Peters' car. Witnesses told the court Mrs. Bartucci struck still another car without stopping to investigate any damage she might have done.

"WE GROW HAIR"

(Registered U. S. Patent Office 187012)

Exclusive right to use the slogan, "We Grow Hair," has been granted to the Thomas'—world's leading hair and scalp specialists, by the U. S. Patent office. This honor has been justly earned by the Thomas' through fifteen years of successful treatment of all hair and scalp troubles, including dandruff, falling hair, and baldness. Because of their success and high professional code of ethics, the Thomas' have expanded into 44 offices throughout the United States and Canada.

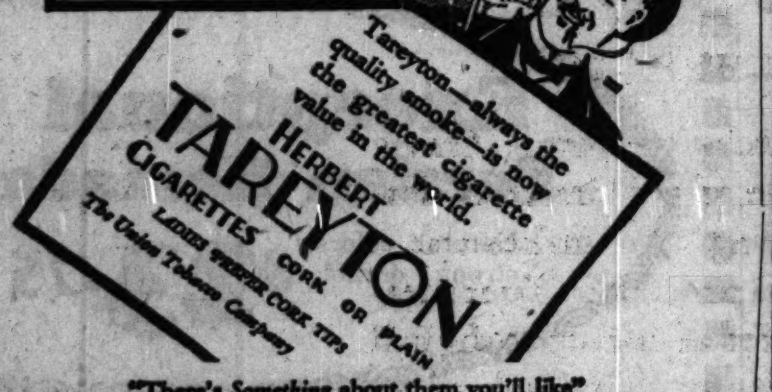

You Can Have a Good Head of Hair!
Each Thomas office is in charge of a specialist who does nothing but examine and treat scalp disorders. He adapts the proved Thomas' treatment to your specific needs. Call today and let one of these men examine your scalp without charge or obligation. Let him show you what is being done for over 1500 others each day and what can be done for you.

Name
Address

The first automobile which Mr. Royce purchased in 1902 offended the soul of the engineer. It was a sorry experimental thing, lacking in sound mechanical principles and in quality of performance. "Why," thought Mr. Royce, "should not a motor-car, properly designed and faithfully made, continue to furnish transportation as does a fine railway locomotive?"

The car he designed was the Rolls-Royce Silver Ghost, twenty years ahead of its time. Not one of these cars has ever worn out! Nor has the fundamental designing been changed in the intervening years. Refinements there have been, of course. The same impatience with present accomplishment that created the first Rolls-Royce took care of that.

Now, there is a new Rolls-Royce, the New Phantom, again an automobile twenty years in advance of its time. It results from the idealism of Mr. Royce and his corps of engineers in Derby, England, and Springfield, Massachusetts—who have sought through the years to better a product already accepted by the general public as "perfect."

Think of the smooth, silent, ever-increasing flow of power from an electric motor—and you have a sense of New Phantom acceleration. It will sweep through traffic, up hills, across country, day after day, year after year. Imagine the balanced progress, the sense of security of a Pullman car—and you have a suggestion of New Phantom transportation on the open road. There are no jolts, throws, alarming side-swings. This car is easy to drive, to steer, to control. The power of acceleration is checked by another power in excess of all needs, the patented six-brake system. The New Phantom has been planned for the owner-driver. A few minutes a month is all the special attention it needs.

Where else, in any motor-car, can you find the margins of excellence offered by the New Phantom? A trial trip will be arranged at your convenience.

GRAYDON PLANS CONTEST OVER SHERIFF'S JOB

Friends Say He Is Gaining Over Weideling.

BY OSCAR HEWITT.

Friends of Sheriff C. E. Graydon, who lost the nomination of G. Weideling, who won on the face of the police returns in the recent election by 3,064. Watchers of the election of votes claim Weideling's lead in official returns will be less than

800 votes out of 455,000 ballots cast for candidates for sheriff. In the country towns, Graydon's watchers have protested against the results in 68 out of the 293 precincts. Probably a third more precincts have been questioned within Chicago. Sheriff Graydon has consulted with his lawyers and it is reported they are proceeding on the theory that a contest will be filed as soon as an official proclamation is made of the results. That probably will be early next week.

Seven Ward Contests Likely.

Seven contests for ward committeeman, among the Republicans, probably will be filed. One of them was shoved into court yesterday. Felix F. Kucharski questioned the regularity of the primary in the Thirteenth ward, which shows John "Dingbat" Oberta as the Republican ward committeeman. The canvass, subject to correction by the election commission, shows Oberta with 2,346 votes, Kucharski with 1,722, Hugh Norris with 1,918, and Andrew W. Gatenby with 351. Kucharski's petition, filed in the County court, charges that workers for Oberta threatened and intimidated judges and clerks of election. The

petition alleges that an armed gang stuffed the ballot box of the Nineteenth precinct with 300 ballots and that there a challenger was intimidated at the point of a revolver. In another precinct the contestant says only 319 persons entered a polling place, but that the returns show 448 votes for Oberta.

John A. Rybicki announced yesterday he will file a contest against Charles V. Barrett for committeeman of the Twenty-first ward. Friends of J. A. Forcero said that he will file a contest against Eugene D. Sullivan for committeeman in the Thirty-second ward. W. F. Hetman, according to his watchers at the election commission's office, will file a contest against Dr. D. D. Coffey. The basis of the announced contest in each of these latter cases is the allegation that the man elected committeeman does not live in the ward as the law requires. Hetman's supporters claim that Dr. Coffey registered from the Home Bank building, Division street and Ashland avenue, while as a matter of fact he lives at the Dunning institution, with which he is connected. It is claimed that no one lives in the Home Bank building, the lease

prohibiting any one sleeping there. Rybicki asserted that Mr. Barrett lives at 841 Hawthorne place, but that he registered from 1534 West 23d street.

Questions Sullivan's Status.

It is charged that there was some difficulty primary day over the right of Eugene D. Sullivan to vote. There is a section in the registration law which prohibits a person from illegally registering under penalty. While various and sundry charges have been made regarding these contests in the canvassing of votes, no charges have been filed in court. In fact, no aggressive action by any agency has appeared above the surface against fraudulent voting in the primary of April 16. Several have intimated that a vigorous campaign is to be launched, but none is visible as yet. D. E. Chasrow, Denese candidate for committeeman in the Twenty-seventh ward, where there was considerable kidnaping and violence, has not questioned the legal residence of Homer K. Galpin in that ward, although it is common gossip that Mr. Galpin lives in a north side hotel. However, two other contests for ward committeeman seem reasonably

certain. On the face of the canvassed votes in the Forty-third ward, Former Ald. Arthur F. Albert won for committeeman over Ald. Titus Haffa by 67 votes. The results, including the stolen votes, not yet officially approved in the Twenty-eighth precinct are: Henry Runkel, 522; Titus Haffa, 413, and Albert, 420. A Haffa agent announced formally to the election commissioners, in session on contested precincts yesterday afternoon, that the Forty-third ward probably will see a contest.

Results in the Thirty-ninth Ward.

Some of the most suspicious returns of the canvass were read yesterday from the Twenty-ninth precinct of the Twenty-sixth ward. Every one of the Crowe-Thompson-Small ticket, except judges, were credited with 354 votes each, including Thomas Curran for committeeman. The opponent in each case was not given a single vote.

DELAY MAY KEEP LIFE BOATS OFF LAKE TILL FALL

When the Favorite sank last July in the lake off Oak street beach with the loss of twenty-seven lives, most of them women and children excursionists, it was announced that utmost precautions would be taken by the city to prevent a repetition of the disaster.

Accordingly upon recommendation of Ald. Dorsey Crowe (43d) there was submitted to the city council a resolution to provide four lifesaving boats to patrol the lake front during the excursion season. This movement finally resulted in an appropriation of \$20,000 for the purpose.

After considerable delay the city department of public works procured standard government coast guard boat plans as a basis for bids from competitive boat building concerns. The plans specify in minutest detail everything in regard to engine and hull.

The final contract award was scheduled at last for March 23, but nothing was done at that time or since.

Boat experts stated yesterday that owing to the various delays it will now be practically impossible to have the boats in operation before late summer.

An interesting variance was noticed among the bids submitted on the four boats. The Wheeler ship yard, Brooklyn, offered to build them for slightly more than \$17,500; the Berger shipyard, Menominee, Mich., bid \$14,400; and the Great Lakes Boatbuilding corporation, Chicago, bid \$26,550, or the full amount of the appropriation.

Hit by Engine, Boy Clings to Bridge Tie and Escapes

Beatrice, Neb., April 23.—Hit by a locomotive on a narrow bridge, but clinging to the structure to save his life, Bobby Davison, 10 year old son of James Davison of Beatrice, lives to tell the story. Bobby and playmates were on the bridge when they noticed the oncoming train. The others reached safety, but Bobby fell. He slipped through the ties and clung on desperately while the train roared past, although a piece of projecting locomotive equipment struck him above the eye.

THE SOLACE—A two-strap model for the street, extremely comfortable.

Comfort that never looks at the clock

EVEN the longest hours of the hardest day cannot take the comfort out of Ground Grippers. Comfortable when you put them on in the morning—comfortable till you take them off at night. Scientifically designed for foot freedom, foot ease, foot happiness! And not only a pleasure today, but protection from foot ills and troubles in years to come.

Three comfort features
Only Ground Grippers combine the three essentials of the supremely comfortable shoe: the Straight Inner Line, the Patented Rotor Heel and the Flexible Arch. The new Ground Grippers are now on display—come in and see them today.

Don't Slow Down So Fast

Brook Hill Acidophilus Milk helps preserve active, energetic health

Don't be one of the many people who, between the ages of forty and fifty, find themselves slowing down. Don't be one of those who, though not quite sick, are never really well.

Natural Fermenting, caused by decay-producing germs in the intestines, not only causes many digestive troubles, but also saps vitality, and leaves you exhausted at the end of the day.

The natural way to correct this is to drink Brook Hill Acidophilus Milk. Absolutely free of any drugs or medicines, this wonderful health food is full of energizing cells which drive out the germs of decay. This accomplished, digestion becomes normal and regular—health and mental and physical vigor return.

Write to Brook Hill Laboratories, General Depot, Wis., for their enlightening booklet, and drink Brook Hill Acidophilus Milk regularly. At all

CITY HALL STENOGR.

April 20.—Now, that you are the secret pay rolls at the city hall, it might be well to seek some of the office helpers are paid such salaries. I have authoritative information that a girl of 20 is making \$40 a week in one department and she all of her stenographic training—high school—no business college matter—and has only had two experience. Another girl of 19 is \$40 a week as a file clerk in the department. These salaries are not bad, I am told; furthermore, the girls are paid anywhere between 9 and 10 in the morning and never leave the office in the afternoon—if they work that late they feel abused. It is most unfair to us girls who go to business college and have thorough training, several years' experience, but only make \$18 a week—simply because we have no political pull. Of course, the hall employees are asked to do this and that—and must do it to hold their jobs—but in the meantime the taxpayer makes the donations to stenographers of 20 age with only a year or two of experience is worth \$53 a week—she is worth \$25. And I am positive that the donations toward new automobiles, rings, etc., for various employees do not amount to \$25 a week—could seem that not only are the employees directly buying all these costly things but they are paying clerical help as much as they are worth. Really, these girls are all told that they claim to be 21 years of age, and to pose as a booster for the city which obtained their positions.

DIRTY WATER.

April 20.—Being another day of dirty drinking water, I think the trouble was corrected. As in this water is bad enough, it is the limit. Why should we drink cloudy water for a month? I never saw such water for so long here in Chicago. A. R. MORA.

OUR SHARE.

April 20.—In an editorial warning you discuss the responsibility of the holdup and murder commit—three boys and place the burden on the door of lax law enforcement and failure to punish. Fair as far as it goes; some of it is there. But what about the press daily provides the youthful unsound with working plans for holdups and keeps it posted on the high days of chance for escape?

S. D. GREENWOOD.

RS

2500 STRONG

A quarter of a century has rolled by since Charles R. Walgreen, with the help of an apprentice and a porter, opened his first little store.

It was started with the idea that there was much in running a drug store besides buying and selling merchandise. . . . The two employees caught his meaning of service and soon a second store sprang up.

Manned by a force of 2,500 people, 180 Walgreen stores now take their place among the nation's greatest retail institutions.

Of this great force many have served 10, 15 and even 20 years. With deep personal pride they have watched two, three, four stores grow and expand into a vast metropolitan chain providing the public with the best merchandise procurable amid an environment of service and comfort.

Their ceaseless efforts and untiring energy have builded a magnificent reality out of a sincere ideal. The Walgreen's of today stands as a monument to their loyalty and labors.

Such words are written not boastfully, but as an acknowledgment of a debt to its employees by a great and growing institution which looks upon their work with justifiable pride.

WALGREEN
DRUG STORES

Hi, Samson, not so much of it!

SONG TITLE CASH PRIZES WILL BE ANNOUNCED SOON

Tribune Force Works to Select Winners.

Since midnight last Friday, the deadline for submitting entries in the first set of THE CHICAGO TRIBUNE'S "Game of Song Titles," a big force of clerks has been engaged in opening, reading, and carefully filling the lists of song titles sent in, along with the letters which accompanied them.

The replies received in the "Game of Song Titles" exceed by a goodly per cent the number of responses to any previous Tribune prize offer with in the last year or more. Many contestants have gone to considerable work and expense in preparing their entries, and some beautiful and elaborate arrangements have been received. However those who submitted merely the clipped coupons as published daily in THE TRIBUNE, with the titles of the song written in on the blanks left in the coupon for that purpose, stand an equal chance of winning a prize, as the judges in going over the entries will base their choice upon accuracy in the lists rather than on the beauty or form of the entry list.

Hundreds of contestants have written in to inquire whether they are also eligible to try for the prizes offered for THE TRIBUNE'S "Second Set of Song Titles." To answer each such letter individually is impossible, so THE TRIBUNE takes this means of answering that all who tried for prizes in the original "Game of Song Titles" may also compete in the "Second Set of Song Titles."

Announcement will be made shortly of the prize winners in the "Game of Song Titles." As soon as the last entries have been opened and examined the judges will begin their task of choosing the best entries from all those received, and just as soon thereafter as possible THE TRIBUNE will begin the publication of the prize winners.

RED McLAUGHLIN, JAILED AS KILLER, SEEKS FREEDOM

Would Thwart Police Again by Writ.

Eugene (Hardballed Red) McLaughlin, notorious gangster, accused by the police of having a hand in many outstanding crimes of recent years, is again trying to find a loophole that will enable him to get out of the county jail. A writ of habeas corpus asking his release on bond on a recent murder indictment was filed yesterday before Judge Otto Kerner in the criminal court and will be decided later in the week.

Capt. William Schoemaker of the detective bureau, names of McLaughlin, has practically found himself up against a stone wall in his effort to procure reliable witnesses against the gangster, who for years laughed at the efforts of the police to find him and put him in jail. The report current in underworld circles is that McLaughlin's hoodlum friends have raised a defense fund, which is

being spread in the spots where it will do most good.

Held for Wokral Murder. The charge which is of most concern to McLaughlin at present is the recent murder indictment charging him with killing Joseph Wokral, former president of the Checker Cab company.

Wokral had lost out as president of the company and it was while seeking reflection that he was found shot while on his way to his home at 3201 North Kostner avenue. He had been fired on from an automobile. Before losing consciousness Wokral named McLaughlin as one of his assailants. The police searched for months for the gangster, for this crime. Although he was reported in an out of the city at intervals he was not arrested until three weeks ago when he was shot at Hayward, Wis., by the mayor of that town. Red had attempted to show off his toughness by smacking down the mayor with a pipe wrench.

Accused of Gem Theft. McLaughlin started his criminal career when 17 years old in a series of automobile stickups. He since has graduated through the ranks of labor slinger and bootlegger to that of de luxe jewelry thief, and alleged kidnaper of wealthy rivals for ransom. In 1926 a photograph of McLaughlin

was identified by Samuel Brandler, New York diamond broker. Brandler had been robbed of unset diamonds valued at \$100,000 while in a restaurant at 1314 South Halsted street.

At that time McLaughlin was out on bonds for attempting to rob Walter Zeeman, another jewelry salesman of \$75,000 worth of gems. He was caught in March of 1926 in the act of choking Zeeman, but was released on \$50,000 bonds.

The police have found McLaughlin always able to make bond, no matter

what the amount. He forfeits his bonds, the police say, as readily as he supplies them when caught.

Among the crimes the police announced that they wanted to question McLaughlin about at the time they were committed were the murders of Omer Finch in the Welcome Inn in Blue Island, and Irving Schlegel, the aviation bootlegger, and his pal Harry Berman. The bullet riddled bodies of Schlegel and Berman were found side by side in a ditch at 33d street and Cicero avenue in August, 1925.

Aged 6 months

Sold Only in New Bottles

WE have discontinued taking back empty bottles because:

In many sections of this country these bottles have been used for purposes that make them unfit for Clicquot Club Beverages.

So much care is exercised in the making of this ginger ale that is AGED 6 MONTHS that the Clicquot Club Company dare not take even a remote chance of having the quality of this beverage impaired by used bottles.

COOLIDGE MEETS DEFEAT IN HOUSE FLOOD BILL TEST

His Proposals Rejected
by 73 to 142 Vote.

(Continued from first page.)

from private life, would consider engineering differences between the Jadwin plan and the Mississippi river commission plan and make recommendations to the President who would have final authority in the matter. Authority for the awarding of contracts would rest with the army engineers.

An amendment by Representative Frear [Rep., Wis.] striking out the clause relieving local interests of any contribution toward the construction of flood control works was rejected. A proposal by Representative Shallenberger [Dem., Neb.] to authorize the construction of reservoirs without further action by congress was defeated by a vote of 109 to 114. An amendment by Representative Luce [Rep., Mass.] providing that property benefited by flood protection should be subject to special assessment by the government was rejected, 119 to 118.

Lorimer Letter Angers Frear.
The name for former Senator William Lorimer of Illinois, who under his privilege as a former house member has occupied a seat on the floor daily since the debate started, again figured in a controversy. Representative Rainey [Dem., Ill.] read a letter from Mr. Lorimer denying charges by Rep-

resentative Frear that he is representing the Tensas Delta Land company and other interests which may benefit by the passage of the bill.

A clause in which the former senator said "And it may be a revelation to Mr. Frear, if he can understand it, that I am not paid for this service but to the contrary, I am here at my own expense," aroused the ire of Representative Frear. He moved that the entire letter be stricken from the record. He contended that the language was unparliamentary, a reflection upon himself and in violation of the rules.

The controversy was finally ended by the withdrawal of the letter by Representative Rainey. The proviso, with the objectionable clause deleted, was later offered by Mr. Rainey to be printed in the Record.

Representative Frear, who figured prominently in the debate, denounced the bill as a gigantic real estate project.

Representative Tilson, in a statement, asserted that the President would be fully justified in vetoing the bill.

FLOOD MAROONS 2 DIXIE TOWNS; STALLS TRAINS

Birmingham, Ala., April 23.—(AP)—Lowland inhabitants of Georgia and Alabama tonight were experiencing the worst flood in many years, while residents of Arkansas, pestered several days by overflowing streams, were winning their fight against the waters.

Railway and automobile traffic was at a standstill in many localities. The overflow washed out sections of highways and railroads as well as wrecked bridges and damaged crops. Andalusia, Ala., and Blakely, Ga., virtually were isolated.

Small tornadoes struck Brunswick and Sylvester, Ga. Heavy property damage was caused.

With flood waters submerging the tracks of the Louisville and Nashville railway at Castleberry, Ala., three

fast passenger trains were marooned.

Passengers included three Southern association baseball teams.

500 Five River Miss.

Banafay, Fla., April 23.—(AP)—Practically the entire population of Caryville, 500 or more, fled tonight as water from the Choctawhatchee river flooded the valley in which the town is situated. Most of the refugees have come here, a distance of 50 miles.

Auto Plunges Into River; Two Die; Three Escape

Marquette, Mich., April 23.—(Special)—Two men lost their lives at Geyna this morning when an automobile left the road at a bridge and plunged into the Escanaba river. Three others in the car escaped.

INDIANATOWNS ARE MENACED AS RIVERS RISE

Indianapolis, Ind., April 23.—(Special)—Fair weather came today as a boon to many towns along the lower reaches of the White and Wabash rivers after heavy rains had sent streams on an almost unprecedented rise, flooding lowlands and causing damage to spring planting.

The crest is not expected to be reached at Mount Carmel, on the Wabash, until Thursday, although the river has risen 7.5 feet there in two days, and tonight stood at 12.6 feet.

At Elliston, on the west fork of White river, a rise of 10.6 feet in forty hours was reported. Flood stage also

had been reached at Edwardsport, with the crest at both towns twenty-four to thirty-six hours distant.

White river was still rising at Decker, where the level was fifteen feet, or three feet below flood stage. The crest probably will be reached Thursday.

Saltis Wins New Delay in Gun Carrying Case

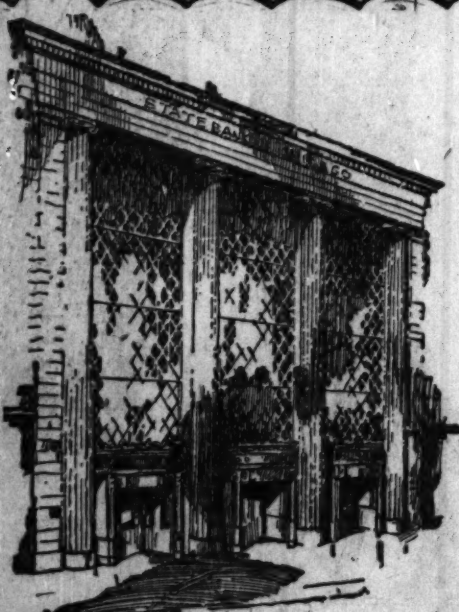

Joseph Saltis, Chicago bootlegger and gunman, won a continuance in his gun toting case yesterday before the United States Supreme court to May 23. Counsel for Joe, who originally was convicted and given a 60 day Bridewell sentence by Municipal Judge George A. Curran, pleaded that he could not appear before the court yesterday.

VOTE IN JUNE ON HALL BOND ISSUE NOW IMPOSSIBLE

Find Enabling Law Is Held Invalid.

The Supreme court decision invalidating the \$15,000,000 Chicago hall bond issue also invalidated the enabling legislation enacted last spring. It was discovered yesterday when copies of the opinion arrived in Chicago.

This means that the proposition cannot be resubmitted to the voters on June 4 as was contemplated by President Anton J. Cermak Saturday when it was reported that the bond issue was found illegal solely on the grounds that improper notice was given for the election a year ago, when the issue carried, 146,778 to 87,223.

New Legislation Needed.

New enabling legislation is needed before another election can be held on the Chicago hall bond issue. The next regular session of legislature opens in January of 1929 and it was pointed out, this will afford ample time for completion of the auditorium and convention building before the 1932 convention.

The special act of legislature was introduced on a technically violating section 13 of article 4 of the constitution, which provides that "no act hereafter passed shall embrace more than one subject, and that shall be expressed in the title."

Grounds for Finding.

"It seems clear," the Supreme court opinion reads, "that the legislature in this act has attempted to do two things: First, to confer upon counties the power to establish municipal halls; and second, to authorize a county and a municipality in such county to do the same thing. . . and we are required to hold the act invalid in toto." Attorneys who took the friendly test case to the Supreme court yesterday requested that their position be made clear, that they are not antagonistic toward the Chicago Hall project but merely added the county at its suggestion in getting an adjudication on the bond issue that would save future legal tangles. Representing the plaintiff, Anna M. Canipe, were her husband, Attorney Frank O. Canipe, and the law firm of Winters, Stevens, Risk & Griffin.

FIRE ON WACKER DRIVE.

Another fire believed to have been started by vandals broke out early yesterday in a vacant building at 48 Wacker drive. Damages were negligible.

BUSINESS CHIEFS ASK FOR REVISED BOND PROGRAM

Faherty to Give List to Them.

The Chicago Association of Commerce through its president, Rufus C. Dawes, stepped into the city's bond issue muddle yesterday with a view of insuring submission of a new program at the June 4 election, eliminating the weak features of the \$17,959,000 list beaten April 10.

Mr. Dawes conferred with Michael J. Faherty, head of the board of local improvements. Mr. Faherty agreed to furnish an analysis of the ten unfinished street widening projects. After studying them the association will return its recommendations to the city council. The plan is to limit the new

list strictly to unfinished projects and to get definite and detailed figures on just how the money will be spent.

The intervention by Mr. Dawes came as a first move to reconstruct the bond issue program. Although the council must decide in less than three weeks what, if any, bond proposals are to go on the June ballot, nothing had been done toward preparing them. Mayor Thompson had delivered a message blaming the newspapers for beating the April 10 program, but was silent on any new proposal.

Ald. John Clark (39th), chairman of the finance committee, announced yesterday that he has abandoned his plan to call together civic organizations to discuss the situation.

"I have decided not to take the initiative again on a bond program," Ald. Clark said. "Nothing is pending before my committee and it's up to the department heads and the organizations themselves to shoulder the responsibility the next time."

Meanwhile, Mr. Faherty in the last few days has fired between 300 and 400 of his employees paid out of bond funds on the ground that what money

remains in the old funds is needed to pay for condemned property. As a result, work toward completion of the various street widening jobs has come to a virtual standstill.

Following his conference with Mr. Dawes, Mr. Faherty said he would send a formal request to the finance committee within the next day or two asking that the street projects be put on the June ballot. He said that he hoped the other organizations, aside from the association of commerce,

ENGLISH POWER CONTROL MERGER DENIED BY INSULL

(Chicago Tribune Press Service.)

LONDON, April 23.—Samuel Insull, Chicago utility magnate, who now is residing at his Berkshire country estate, today denied he had entered any combine by which his interests, as reported, had gained control of the Wes-

sex power group to supply power to all southern England. Mr. Insull said he had no interest in any power projects in England or on the continent.

"My connections with public utilities are confined to the United States," he said. "Our office here merely sells our securities. The reports that I am trying to gain control of power interests here are absolutely false."

He refused to be quoted on the Chicago elections.

STEINWAY the instrument of the immortals Official Piano Chicago Musical College

Small Parlor Grand—\$1000
A large model, for the home in which there is no space problem. This is the standard home piano, and an instrument of amazing power and depth of tone.

The Baby Grand—\$1425
This instrument is small enough for the most limited space, yet it retains that breadth and beauty of tone which a true grand piano ought to have. A very popular model.

For your home.. the right STEINWAY and the right price

THE Steinway has been the personal instrument of almost every great pianist since Liszt. In the truest sense, therefore, it is "The Instrument of the Immortals." Yet it is primarily a piano for the home, and particularly for the home of limited income.

For the lifelong service which this great piano will give you—30, 40, or even 50 years and more—spells real economy. You will save in repair bills and replacements. Its wonderful singing tone will be always yours. . . There is a model and a price to suit every home, and our monthly payment terms are very convenient. Make your visit to Lyon & Healy's today.

New Steinways can be bought for as little as
\$875

Monthly payments may be easily arranged. A Steinway is made so easy to own. A very moderate cash deposit, which varies with the model chosen, and then small monthly payments spread over a term of years. Your old piano in trade.

THIRTY REPORTED KILLED BY HEAVY QUAKE IN GREECE

Four-fifths of City Ruined;
Thousands Homeless.

(Picture on back page.)

[Chicago Tribune Press Service.]
ATHENS, Greece, April 23.—Chaos reigns in the group of Greek villages which were smitten last night by a severe earthquake, which caused the death of at least thirty persons and made thousands homeless. Some reports place the list of dead at fifty.

The town of Corinth was the worst hit by the tremor. According to latest reports the number of dead there totals twenty, with seventy injured. Four-fifths of the houses were destroyed in Corinth and the remainder are unsafe for habitation. The power house was destroyed and the town plunged into total darkness. During the excitement the prison was broken open and many convicts escaped and are now roaming through the town.

Estimate 16,000 Homeless.
It is estimated that there are 16,000 homeless and destitute at Corinth, 2,000 at Loutraki, and 4,000 elsewhere. Many of the refugees are scantily clad and lost all their belongings in the ruins.

The Corinth canal has been closed to boat traffic, owing to fears that the canal walls may give way at any moment. Guards have been posted at regular intervals to spread the alarm if necessary.

American School Safe.
The American School of Archaeology, which is excavating at Old Corinth, which was destroyed by a quake in 1868 and lies three miles from the new city, was not seriously damaged. Chimneys fell, but the museum and canteens were only slightly damaged. All the Americans fled outdoors and none was injured.

JUDGE ANGRY AS CURRIE LAWYER HINTS TAMPERING

"Cease Firing" Order
Is Produced.

[Chicago Tribune Press Service.]

COBBOURG, Ont., April 23.—The last battle of the war is being fought in Cobourg court in order that the private of the army might receive their fair share of the glory of the last engagement. This was the final declaration of W. H. Wilson, one of the defendants, before he left the witness box this afternoon in Gen. Sir Arthur Currie's \$50,000 suit for libel.

To the man who first received the armistice message at Canadian corps headquarters today fell the distinction of being the first witness for the plaintiff in rebuttal. He was Col. S. A. A. Magee, a Montreal lawyer, who was general staff officer at corps headquarters at the time the armistice was signed.

Changes made in the message drew suspicious questions from Frank Regan, chief defense counsel, who has tried to prove that the Canadian corps received word of the armistice at 6:05 a. m.

As the document was put on as an exhibit, Mr. Regan remarked: "I suppose there will be no more changes made in that message. The changes that have been made have been the subject of so much humorous comment."

There was an ominous pause, Justice Rose sitting with his eyes on the desk in front of him. The court and spectators, realizing the seriousness of the situation, seemed to be sitting breathless. Finally the judge raised his head and looked sternly at Mr. Regan.

"Are you suggesting," he demanded, "that the clerk of the court, or any official would change the document?"

"No, my lord," replied Mr. Regan hurriedly. "I was just joking."

"If I thought you were making the suggestion," began the judge again.

BRIAND'S ILLNESS CALLED PERIL TO POINCARÉ'S RULE

[Chicago Tribune Press Service.]

PARIS, April 23.—The fever that has kept Foreign Minister Aristide Briand confined to his home for five days, and still is raging, is fraught with more menace to the political health of France and the rest of Europe than the outcome of next Sunday's "run off" election to determine the composition of the next government.

M. Briand, who almost single-handed in France forged the Franco-German rapprochement, and who has come to be the personal embodiment of the French foreign policy, is 65 years of age. Well informed circles say his health is so seriously undermined that if he recovers his retirement will be imminent. His foreign policy is a counterpart of the financial housecleaning of Premier Poincaré. His

presence in the cabinet was the only thing that glided the Poincaré pill for liberal opinion in France.

There is no one else in France able to keep the country's international policy off the floor of the chamber and keep the deputies from tangling the skeins. Observers are convinced that Foreign Minister Briand's death or retirement would be a death blow to the Poincaré union government.

With 425 deputies yet to be elected to fill the 611 seats in the new chamber of deputies, France today began a busy week's campaign for next Sunday's balloting.

Complete returns tonight show that 144 out of 183 candidates elected yes-

terday have pledged the continuance of the Poincaré national union cabinet and completion of the task of financial salvation, begun tardily two years ago when the country was on the doorstep of ruin. Moderates and conservatives predominate, causing partisans to believe there will be a sensational swing away from the great left majority of the last chamber.

The communists, who yesterday polled more votes than ever before and seemed destined to get fewer seats, find themselves in the ironical position of being able almost to decide next Sunday's election. However, the party decided tonight not to make any combinations with Socialists or radicals.

Summer Camps

SCENIC WAY EAST. A hundred miles along the Potomac

Harpers Ferry from Bolivar Heights

Nowhere is there a more pleasing combination of scenic beauty and historic interest than on the Baltimore & Ohio route to Washington and the East.

To the idyllic charm of the Allegheny Mountains, rugged and majestic in their ever-changing shades of color, is added the still more delightful attraction of that favored region which lies beyond—the Valley of the Potomac.

What stirring times that old Indian name—Potomac—recalls! And what halos of glory hover above the hamlets and towns of Potomac Valley! From Harpers Ferry eastward, every settlement has seen the "rocket's red glare" again and again. Interesting as it is, the story of Washington, the National Capital, is but a sequel to the story of the Potomac Valley.

A tranquil valley today—you may see it while enjoying the comfort of modern trains—the Capitol Limited or No. 8, the Washington-New York Special.

THREE MORE BIG
ILLINOIS MINES
YIELD TO UNIONPeabody Coal Company to
Pay Full Scale.

Springfield, Ill., April 23.—(Special.)—Three large mines in Illinois will open tomorrow, paying the Jacksonville scale. Two of them belong to the Peabody Coal company of Chicago, one of the largest operating companies in the state. They are mines Nos. 7 and 8, located at Kincaid, Ill. The third mine to reopen under the Jacksonville scale is the Decatur mine, owned by the Decatur Coal company.

Three smaller mines also will reopen. They are the Cosgrove-McCormick mine at Paulton, Henderson and Walker mine near Marion, and the Owen Fuel company mine between Marion and Herrin.

Hundreds Resume Work.

The two Peabody mines which reopen tomorrow will give employment to 1,500 men. It is reported that a third Peabody mine, No. 15, located at Taylorville, will reopen as soon as repairs can be made.

There is some doubt as to the situation in the Peabody mines. The operating company says the two mines were reopened to meet contract requirements and that the other nine mines in the state belonging to the company will not grant the Jacksonville scale.

Ray Harvey Flashwick, head of the Illinois union, asserts that all the Peabody mines will grant the Jacksonville scale. Dispatches from Taylorville said W. C. Argus, division superintendent of the company, sought to sign agreements for mines No. 7

and 8 only, but union officials, headed by Allan S. Haywood, executive board member, refused to sign unless the contract included all mines owned by the company in this state.

Study Coal Plans.

Washington, D. C., April 23.—(AP.)—With a view to preparing a possible legislative remedy for the depression in the bituminous coal industry, the senate investigating committee today appointed a subcommittee to consider numerous proposals offered by the United Mine Workers and operators who have appeared before it.

Appointment of the committee by Chairman Watson came at the conclusion of a day devoted to attacks on the United Mine Workers by Ohio operators, who held the union responsible for the depression affecting the industry. L. H. Bray of Cleveland, chairman of the Cambridge Coal Operators association, and William E. Tytus of Columbus, president of the Sunday Creek Coal company, testified.

Union Ousts Rebels.

Columbus, O., April 23.—(AP.)—The

Ohio district executive board of the United Mine Workers went on record today in support of the international executive officers by expelling all members who have taken part in the "save the union" movement launched recently in the eastern Ohio coal fields. The international executive board has declared the movement to be the work of communists.

The Ohio board removed from of-

fice Oral Daugherty, president of sub-district No. 1.

Leaders of the "save the union" movement were the instigators of recent "protest marches" on mines in the St. Clairsville-Steubenville district. All persons who took part in these marches were ordered expelled from the union. Members of the Pennsylvania-Ohio relief committee also were expelled from the Ohio union.

Woman Banker Found

Guilty of Embezzlement

Terre Haute, Ind., April 23.—(Special.)—Joseph Mullikin and Miss Kate Long, former secretary and assistant secretary of the Union Savings association, on trial last week in Circuit court on an embezzlement charge, were found guilty today.

A RACER? YES. BUT THIS REMARKABLE CAR IS PRIMARILY A FAMILY CONVEYANCE. SAFEST OF ALL, ITS CAPACITY FOR GREAT SPEED IS A PRIME FACTOR IN THAT SECURITY. ITS MECHANICAL NIMBLENESS IS BUT SINGLE EVIDENCE OF THAT PAIN-TAKING SKILL WHICH HAS MADE IT THE OUTSTANDING FINE CAR OF TODAY.

(Above) POLO FOR ALL, and Miss Lorna Dillingham becomes an ardent enthusiast. Smiles like hers depend on Pepsodent to keep them white and bright.

Teeth Whiter When Free
of Dingy Film

Remove film, dentists urge, to whiten teeth—to combat serious tooth and gum disorders

MODERN dental research has thrown a new light on dull, "off-color" teeth and on many of the commoner tooth and gum disturbances. Both conditions now are largely charged to a stubborn film that forms on teeth that brushing fails to remove successfully.

For that reason, a new and essentially different way in tooth and gum care—the Special Film-Removing Dentifrice called Pepsodent—is being widely advised by dental authorities. A tooth paste different in formula and action from any other dentifrice. Dentists urge its use at least twice each day.

By running your tongue across your teeth, you can feel that film—a slippery, viscous coating. Film clings to teeth and stays. It absorbs food and nicotine stains, and makes teeth look dull. It supplies a breeding place for germs of decay and gum troubles. Film is the basis of tartar. And tartar, with germs, is a cause of pyorrhea.

Pepsodent removes that film in gentle protection of the enamel, giving teeth thorough cleanliness and high lustre. It acts to firm tender gums. It increases alkalinity of saliva and thus combats acids of decay.

All those factors are judged of great importance by present-day dental research. Teeth lighten as full film coats go. Gums harden and take on healthy coral color. You note a marked difference in both teeth and gums. Send coupon for 10-day tube to start you.

PEPSODENT

The Quality Dentifrice—Removes Film from Teeth

(Above) BOBBIE CLARK and Marie Saxon, the well-known comedy singe folks, enjoy the races at Washington Park. Smiles kept bright by Pepsodent are no small part of their charm.

(Below) A SORORITY AFFAIR in the nature of a baseball game is attended by Misses Hodge, Sedgewick and Long of the U. of M. At college, too, Pepsodent plays a major part in aiding beauty.

SMILES ARE DAZZLING WHITE when film is gone. Teeth sparkle like polished jewels. Gums firm to healthy coral tint. Thus this new scientific way of dental care becomes one of the greatest beauty treatments of the day, and, with its unique therapeutic and prophylactic qualities, a great aid in oral hygiene.

(Right) NEWEST BEAUTY TREATMENT and perhaps the most important, today is given in your dentist's office. Here Miss Janet Salling is being shown how gleaming white teeth are when film is gone—is being told to use at home the film-removing dentifrice called Pepsodent.

CHICAGO LLOYDS
Automobile Insurance
Saves You Money

Saving...

Careful drivers who still pay standard rates for car insurance are wasting \$10 to \$35 per year. That is the saving you can make today through Chicago Lloyds insurance. These policies are written only for people of known integrity—the "Preferred Risks." Every responsible motorist with a clear driving record is eligible.

Standard Insurance...

A Chicago Lloyds policy is standard insurance. There is no mutual or reciprocal liability to the policy holder. You pay the premium—Chicago Lloyds pays the losses, if any.

Prompt Adjustments...

Chicago Lloyds pays proven claims within 24 hours. Settlements have been highly satisfactory to policy holders as is evidenced by countless letters of appreciation in our files.

Reliability...

Assets of well over \$2,000,000 are behind these policies. An organization of Chicago and the Middle west, Chicago Lloyds is made up of over 400 underwriters prominent in the financial and business life of this territory. Chicago Lloyds writes only well established lines of automobile, residence or industrial fire and theft, plate glass and casualty insurance.

UNITED SUPPORT OF BOULDER DAM LIKELY TO WANE

Valley and Los Angeles
Groups Play Politics.

BY HARPER LEECH.

Article V.

(Chicago Tribune Press Service.)

El Centro, Cal., April 23.—(Special.)—If the Boulder dam bill fails to pass this congress, it is rather improbable that the alliance of the Imperial Irrigation district and the Los Angeles water and power department will remain unimpaired, despite the fact that interlocking political and business interests supplement the common interest of the two powerful organizations in the diversion of water from the Colorado river.

The Imperial valley has no interest in power to be generated in Boulder dam. It has the unquestioned right to ask for government aid in flood control, and thereby contributed the equities to the scheme. But, in return for that and its support of a power and city water supplement to the Colorado river dam project, the Los Angeles political and business interests have given assistance to the supplemental project of the All-American canal, designed to increase the irrigable area of the Imperial valley.

Minority Sees Disadvantage.

A political minority in the valley, therefore, never have been enthusiastic for the All-American canal. In fact it would serve to make competition more intense for the products of the lands now watered and under the plow.

The dramatic elements in the Boulder dam propaganda have been two-fold: (1) the sure fire ego and war-wolf stuff, embodied in the picture of the power trust throttling the plans to give cheap power to the people; (2) the sob stuff about the imminent danger of a fearful flood in the Imperial valley.

The latter appeal has probably been effective with public opinion, but unfortunately it has been effective in the bond market also. While bond houses are too well informed to take such stuff seriously and know that Imperial valley bonds are sound investments—they still command a premium; bond salesmen do not like the sales resistance created by the alarmist stories of impending flood disaster.

Awakes Public Suspicion.

We have the spectacle of the Boulder dam project creating a depression in the real estate market in the Imperial valley with its acres of unexampled fertility, while on the desert heights nearer the dam, where benefits are highly improbable, there has been an enhancement of values.

With these things confronting them, the Imperial valley is beginning to wonder if it has not been used to pull somebody else's chestnuts out of the fire—it feels that its paws are stung a little. Some friendships are costly, the valley is beginning to suspect as it reads of its impending doom in the papers, while it knows that it is safer than in years.

The levee system protecting the Imperial valley from flood, which now extends over thirty miles below the Mexican border, was never in better condition. This is shown in cold black and white by the fact that last year the irrigation district spent only about \$80,000 on its system of flood protection, against \$112,916 the year before.

Contradicted by Figures.

The figures on flood protection expenditures by the district, when compared to the total expenditures, show the absurdity of the statements which have been broadcast to the effect that the "poor farmers" of the Imperial valley have been bowed down by crushing debts contracted in the fight with the treacherous Colorado.

Senator Gillett Better To Resume Duties Soon

Washington, D. C., April 23.—(AP)—Senator Gillett (Rep., Mass.), who has been ill for the last two weeks, today was reported as greatly improved. At his office it was said his condition was such that only the inclement weather was keeping him away from the senate.

May Determine Fate of Boulder Dam Bill Today

Washington, D. C., April 23.—(AP)—The house rules committee today decided to take up the Swing Johnson Boulder canyon dam bill tomorrow to determine when the legislation should be given the right of way.

KINDERGARTEN PLAY PLANNED.

Children of the kindergarten at the Halsted school, 231 West 23d place, will give "Hazel and Gretel" in the assembly hall of the school tomorrow morning.

Mrs. Lawrence Wins Fight to Keep Social Service Job

Mrs. Josephine H. Lawrence, social service worker, yesterday won what is perhaps the final battle in her three year fight for reinstatement as assistant superintendent of the county social service bureau. The supreme court upheld the appellate court decision in her favor last February. Mrs. Lawrence, who founded the county's social service bureau in 1911 and was ousted in 1925, said she will resume her public work within a few days and will file a claim for back salary for three years.

333

NORTH MICHIGAN AVENUE BUILDING

At the Gateway to Chicago's Greatest Business Expansion

Aside from its commanding location, its superlative beauty and character, you will be attracted to the "333" North Michigan Avenue Building because of its extraordinary economies.

The time-saving of its central location with quick transportation to all parts of the city and suburbs; its space-saving, scientific arrangement of floors; increased work-a-day efficiency due to fresh air, and inspiring outlook, all contribute worth-while economies business men are quick to recognize.

Every square foot of the rentable area of "333" is usable. Every office is an "outside" room. Perfect ventilation; light on all sides that never can be obstructed. Space to suit your most exacting need. Whether you require an office unit of 220 feet, or of any multiple thereof up to entire floors of 10,166 square feet, "333" satisfies that need completely, with many additional economies and conveniences thrown in.

The attractiveness of design and the efficiency of the office, specialty shop and exclusive store areas of "333" appeal to men and firms who demand the best in a building which dominates the section of Chicago's greatest business expansion.

"333" is ready for inspection and occupancy now. Call, phone, or write for renting information—

William O. Traher, Building Manager
307 North Michigan Avenue
Telephone Central 9166

(Renting Office in "333" is also open)

PROVES SECRET OF CREATION IS IN COSMIC RAYS

Dr. Millikan Gives Result of His Experiments.

Washington, D. C., April 22.—(AP)—Evidence that the creation of cosmic elements is in continuous progress and that this phenomenon is the source of the tremendous energy of the cosmic rays, was announced today by Dr. R. A. Millikan of the California Institute of Technology, winner of the 1925 Nobel physics prize for his work on the electron.

These rays, the most powerful known to science, were discovered by the Millikans several years ago, and the announcement tonight of the results of subsequent investigations, made before the National Academy of Sciences, was regarded as "placing in the record" one of the most important achievements of science in recent years.

Working with his assistant, Dr. G. Harvey Cameron, he said, he has found "evidence that the more stable and more abundant elements like helium (abundant in the heavens), oxygen, silicon and iron, are being formed at the present time out of the primordial positive and negative electrons, the former of which is the nucleus of the hydrogen atom."

Experiments with pilot balloons which carried recording electroscopes 10 per cent of the distance to the top of the atmosphere, he related, have shown "conclusively that these rays consist of a definite and distinct range of spectral frequencies, or oscillations, a hundred times more rapid than those produced by the most powerful electronic changes heretofore known, namely those accompanying radioactive changes."

Using electroscopes ten times more sensitive than those employed previously for experiments in deep, high altitude California lakes last summer and fall, he and Dr. Cameron "brought to light the definite proof that the cosmic ray spectrum consists of definite bands like those of neon and mercury lamps, containing spec-

MILLER ON WAY TO U. S. PRISON FOR ALIEN PROPERTY FRAUD PLOT

(Picture on back page.)

New York, April 22.—(Special)—Col. Thomas W. Miller, former alien property custodian, was on his way tonight to the federal prison at Atlanta, Ga., to begin serving his sentence of 18 months imposed upon him following conviction of conspiring to defraud the government while in office.

Though occupying the same status as any other federal prisoner, Miller avoided being taken to Atlanta with other felons by paying the expenses of his two guardians. The fare of his own trip, plus a limited amount for Pullman and meals, was paid by the government.

Miller was convicted on a charge arising out of the return of property valued at \$7,000,000, seized during the war, to the American Metal company, a Swiss concern. The government charged that Miller, the late John T. King and Harry M. Daugherty, former attorney general of the United States, had split \$300,000 in that deal.

trial lines as much as three octaves apart."

The highest frequency band, they determined, has a penetrating power so great that it passes through as much as 200 feet of water before becoming completely absorbed. Such power would carry the rays through 18 feet of lead, a thin layer of which is sufficient to halt the penetrating effect of the now familiar X-ray.

Uses Einstein Theory.

The discovery of a banded structure in the cosmic rays, Dr. Millikan explained, "shows that they are not produced as are X-rays by the impact upon the atoms of matter of electrons which have acquired large velocities by falling through powerful electrical fields." At least 150,000,000 volts, 3,000 times as powerful as the field existing in X-ray tubes, would be needed to produce frequencies of the order of the cosmic rays, he said.

Through calculations based on the Einstein special theory of relativity and considering the recently established mass of each of the atoms, he arrived at the conclusion that "there are no possible transformations capable of yielding rays of the enormous penetrating power" observed for the cosmic rays "except those corresponding to the building up or creation of elements like helium, oxygen, silicon and iron out of hydrogen, or out of helium."

COMMITTEEMAN SUED BY BEATEN RIVAL FOR \$100,000

Suit for \$100,000 damages was filed in the Superior court yesterday by Ald. Stanley Adamkewicz (31st) against Joseph Przybylo who defeated him at the April 16 primary in the contest for 31st ward Democratic committeeman.

The alderman charges that during the campaign Przybylo circulated a pamphlet, printed in Polish, asserting that Adamkewicz had caused the city council to vacate a section of Cornell

street for the Russakor Can company and had taken a trip to Europe on the proceeds. The pamphlet also called him a Socialist. Ald. Adamkewicz said, and held him responsible for the location of an obnoxious incinerator on Goose Island.

"I voted against both the street vacation and the incinerator in the council and I never was a Socialist," the alderman declared. "Przybylo beat me by spreading these falsehoods and I intend to make him prove or retract them in court."

PRZYBYLO CAN INSURE FATAL. Injuries received last December when he was struck by a street car near his home caused the death yesterday of Quinn Peterson, 49, of 2700 Armitage avenue.

Don't Be "Skinny" and Scrawny! Build up Weight in 3 Weeks with New Combination of YEAST and IRON—or Pay Nothing

No Woman Is Beautiful Who Is Skinny

Pleasant Because Tasteless

"I Gained 10 Pounds" "For over a year I had no energy or ambition. My complexion was sallow, I could not get up at night. I had lost all my weight and I was just a shadow of my former self. After using your IRONIZED YEAST I feel like a new woman. My complexion has cleared up wonderfully. I have gained 10 pounds and I am full of energy."—(Mrs.) M. E. Chicago, Ill.

It seems incredible how fast IRONIZED YEAST adds pounds of good firm flesh to women and men, children and old people. Doctors know the value of vegetable iron and yeast in building up and improving the body. IRONIZED YEAST, in a highly concentrated form, contains all the blood-building properties of vegetable iron with yeast.

New Complexion For You People ask—what is the magic in IRONIZED YEAST that transforms sallow, hollow, faded complexions into the fresh, smooth, lovely skin of early girlhood? Wrinkles disappear. Eyes reveal the sparkle of youth. Hollows fill out.

Ironized Yeast is two times as one—weight-building Yeast and iron—strengthening Iron. The yeast is the same used in making malt and which makes malt so beneficial. It is specially cultured yeast concentrated to give the utmost in flesh-producing value. Only when Yeast is Ironized in this way is it more effective—for iron is needed to bring out the weight-building, strengthening value of Yeast. That's why IRONIZED YEAST works so quickly. So get a generous test treatment—also, busy tablets in a handy bottle. No nasty, gritty taste. Do not cause gas or bloating. Safe for everybody—containing no harmful drugs.

Try It on "Money-Back" Offer Go to any drug store and get a full size treatment. If after this generous trial you are not delighted with effect, ask for your money back. It will be refunded immediately. If inconvenient to buy from drugist, send \$1.00 to the IRONIZED YEAST CO., Atlanta, Ga., Desk 146-E.

CAUTION! While the amazing health-building value of IRONIZED YEAST tablets has been clearly and positively demonstrated in cases of lack of energy, indigestion, constipation, skin eruptions, poor complexion, and a generally weakened physical and mental condition, IRONIZED YEAST should not be used by anyone who OBJECTS to having weight increased to normal.—(I. T. Co.)

Plenty of outlets brings electrical comfort into every room

Plan your wiring when you plan your home

When you build a new house—or remodel an old one—consider each room as it will be when it's finished.

Take your bedroom, for instance. See that you have doublelights at your dressing table. See that you have an outlet for a lamp at your bedside. See that you have an outlet for a heating pad and one for a curling iron. Think about your vacuum cleaner, too. Where will you plug it in? Or where will you put your sewing machine?

Be sure you have a switch at the door so you won't have to bark your shins groping in the dark.

All these elements of comfort—in every room of your home—will be yours if you order a General Electric Wiring System. This is completely planned wiring that takes care of every detail. It gives you General Electric materials inside your walls and out—guaranteed for perfect and lasting service.

The G-E Merchandise Distributor is a vital factor in General Electric service to the public. His complete stocks are always available for the contractor who serves you.

GENERAL ELECTRIC WIRING SYSTEM

A Suggestion TO MEN

which women are invited to read

WHEN you buy your new General Motors car, why not keep your present car instead of trading it in? Too many families are left marooned when the man of the house drives off in the morning. A woman needs a car for her business, too—the business of managing a home.

A car that is her very own will conserve her time and provide the hours in the open air that are the best health insurance for children. It will enable her to shop more economically; to see the friends who live at a distance; to keep in touch with widespread opportunities.

Buy a new car as you have planned, but keep your present car for your family.

The General Motors line offers a new car "for every purse and purpose," and ownership is made very easy through the convenience of the GMAC Time Payment Plan.

Another Suggestion

Another thrifty way to have a second car is to buy a good used car. General Motors dealers invite you to see their stocks of used cars and offer the convenience of the GMAC Plan of Purchase.

13 STATES OPEN CRUCIAL LAKE DIVERSION FIGHT

Chicago Faces Foes in
Supreme Court.

Washington, D. C., April 23.—[Special.]—Years of controversy over the Chicago sanitary district's right to divert Lake Michigan water toward the end today as attorneys for the thirteen lake and Mississippi valley states involved began final arguments before the United States Supreme court, which it is now expected will give its decision before the summer recess.

Late this afternoon, after counsel for the lake states—New York, Pennsylvania, Michigan, Ohio, Wisconsin and Minnesota—had exhausted nearly three hours of the four allotted them in a last appeal for an injunction to halt the diversion, Cyrus E. Dietz, special counsel for the state of Illinois, opened his argument in defense of the findings of the court's special master-in-chancery, Charles E. Hughes.

Tomorrow, James M. Beck, former solicitor general of the United States, will close for the state of Illinois and its allies, Missouri, Kentucky, Tennessee, Louisiana, Mississippi and Arkansas. Newton D. Baker will sum up for the lake states.

Huge Damage Claimed.

Nathan L. Miller, former governor of New York, told the court that "diversion of a considerable river" at Chicago has damaged great lakes shipping, harbors and pleasure resorts. He and Wm. W. Potter, attorney general of Michigan, the latter's assistant, Wm. M. Bruck, and E. S. Jackson, special counsel for Wisconsin, attacked the right of congress or the war department to authorize a diversion from one water shed into another.

"So far as this lakes-to-the-gulf waterway is concerned," said Mr. Miller, "it is a dream, always has been a dream and will always be a dream. Advantages of such a proposal are remote, because there is no commerce in prospect for such a waterway. This is a move to get cheap power for Chicago. That is all there is to it."

Michigan's attorney general emphasized the contention that even if congress has the power to permit a diversion it has no power to delegate that authority to the war department, and he asserted that continued diversion imperils friendly relations between the United States and Canada.

Illinois Replies.

"We contend, and the special master has found," declared Mr. Dietz in opening for Illinois, "that the diversion is an aid to navigation in the lower part of Lake Michigan, as well as in the Chicago and the Des Plaines rivers. The secretary of war has ample authority to permit the diversion, and congress, by several affirmative acts, has cooperated in the improvement of the Chicago river, in order to facilitate the completion of the sanitary and ship canal."

WALDO H. LOGAN, BROKER, SUED FOR DIVORCE IN RENO

(Pictures on back page.)
Waldo Hancock Logan, a member of the brokerage firm of Logan & Bryan headed by his wealthy father, Frank G. Logan, yesterday was sued for divorce in Reno, Nev., by Mrs. Mary Wolf Logan, to whom he was married in 1921. She alleges that, while living in Los Angeles last fall, he spent several nights away from home, refusing to tell where he had been, and that last Christmas he preferred visiting his parents over the holidays to remaining with his wife and baby.

Last January, Waldo's brother, Howard H. Logan, a New York broker, was divorced by Mrs. Helen B. Logan, 26 Scott street. Another brother, Stuart Logan, was married April 14 to Mrs. L. Bilgere Kavanaugh.

Col. Lindbergh Arrives in New York in New Plane

Curtiss Field, N. Y., April 23.—(AP)—Col. Charles A. Lindbergh landed here at 5:40 p. m. today from Washington. He was flying his new Ryan monoplane with C. H. Land as a passenger.

New Things Will Charm Cleaning Cares Away

Rugs

The Smaller Mosuls \$25

To give the difficult corners a part in the decorative scheme is the mission of these small Mosuls—3½ x 5 feet, \$25. Here too is an interesting grouping of Anatolians, 2½ x 4 feet, at \$15 each.

Room-Size Turkish Rugs \$115

The design in the borders and the deep blue, tan or rose grounds in these rugs gain greater beauty with service. 9 x 12 foot size, \$115.

Ninth Floor, North, State.

Furniture

A Davenport and Chair \$195

Have frames of rich mahogany in antique finish and coverings of linen frieze. The cabinet work and the quality of the woods emphasize the value.

A Walnut End Table \$35

Exquisitely carved, shows French influence in its design. Harmoniously it accompanies the two pieces above, or fits in with furnishings already in use.

Sixth Floor, Wabash.

Housewares

Step Ladder with Pail Shelf \$1.85

And each step steel braced, so that there is security as well as convenience in this six-foot step ladder.

Electric waxing outfit. Wax, mop, and polish, \$29.50 complete.

A floor brush with long handle is \$2.45.

Sixth Floor, South, State.

Curtains-Draperies

Bordered Filet Panels \$6.75

Plain centers in a wide open mesh continue down to a deep border which is given emphasis by hand-tied fringe. 54 inches wide and 2½ yards long are these curtains from abroad.

Printed Mohair Drapery Fabrics

Hand-blocked patterns—the old-time Toile patterns or modernistic flower. A charming fabric easily adaptable to any treatment. \$2.75 to \$4.25 yard.

Sixth Floor, North, State.

China, Glass, Lamps

97-Piece Dinner Sets From France, \$32.50

Pink rosebuds and green foliage are conventionalized in a border design. Another set has a checkered border effective against a wide ivory-color band. \$32.50 each.

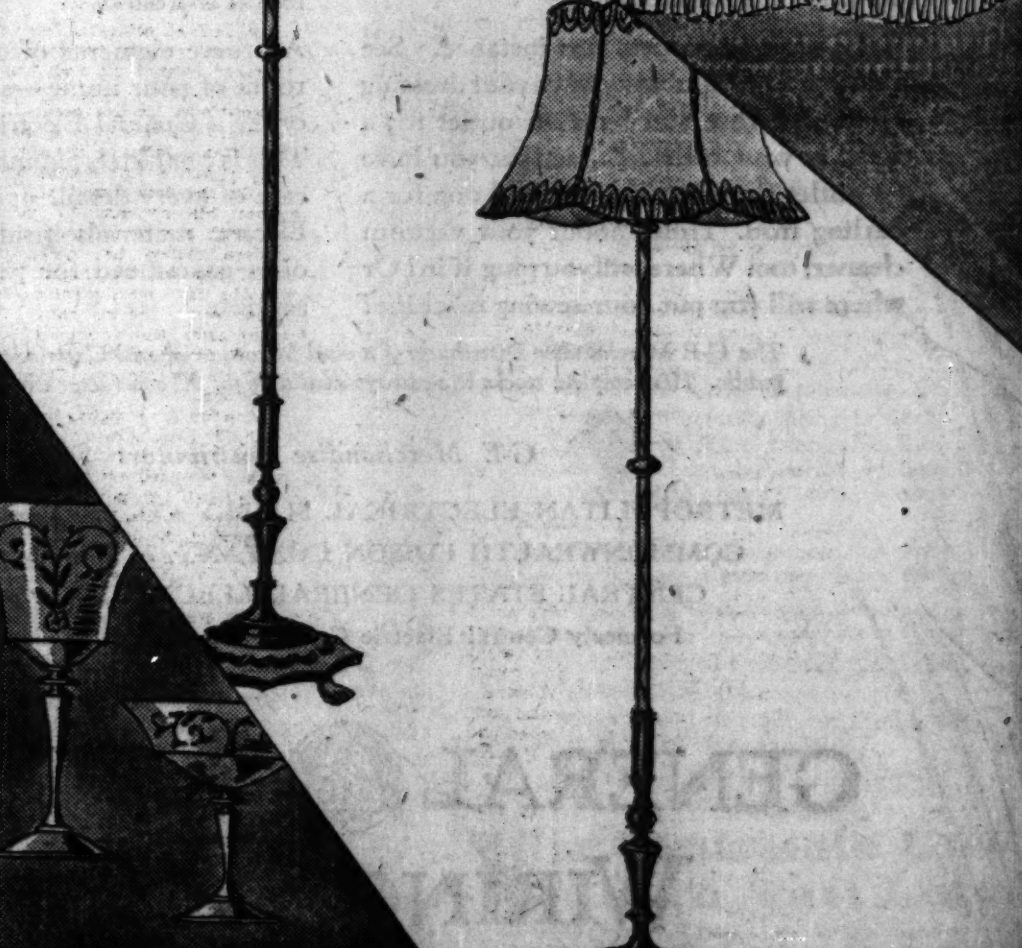

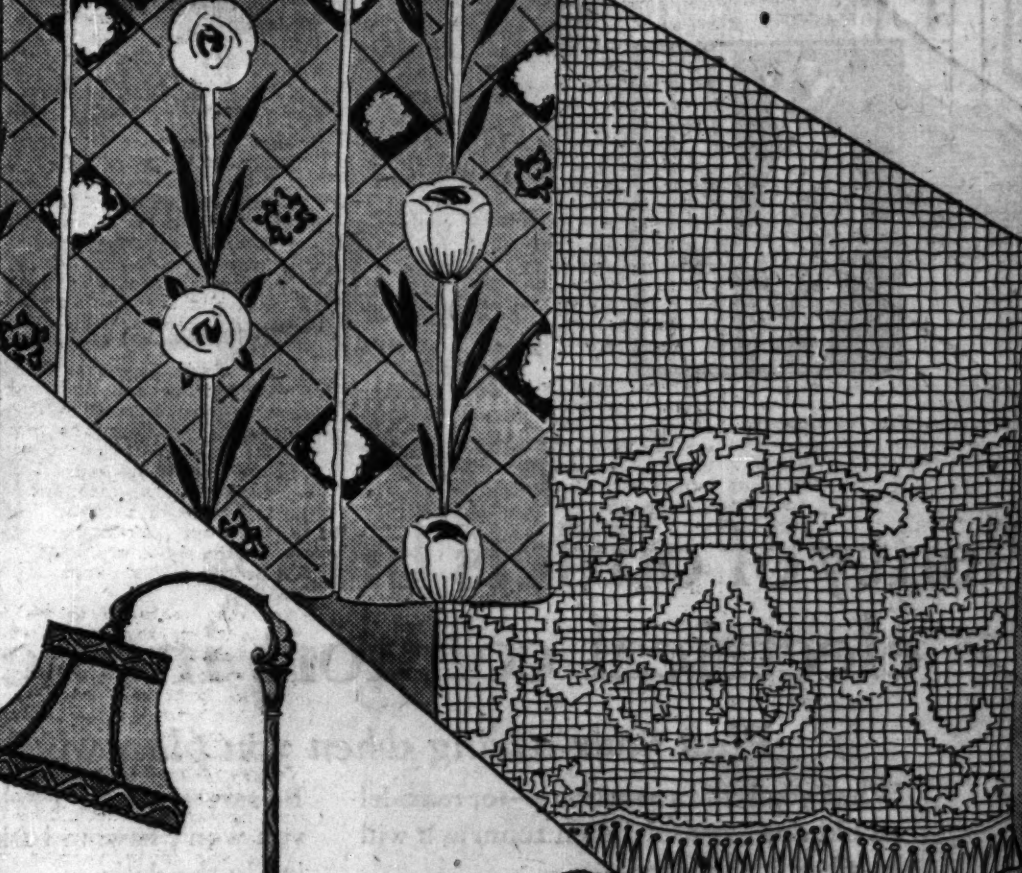

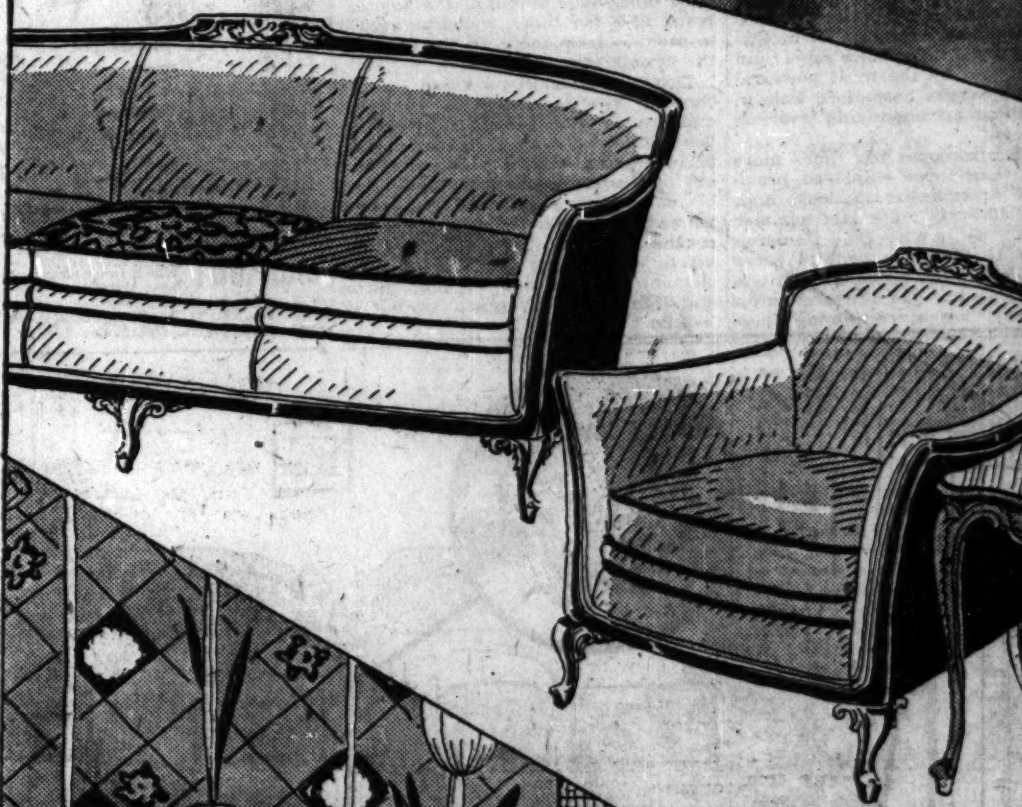

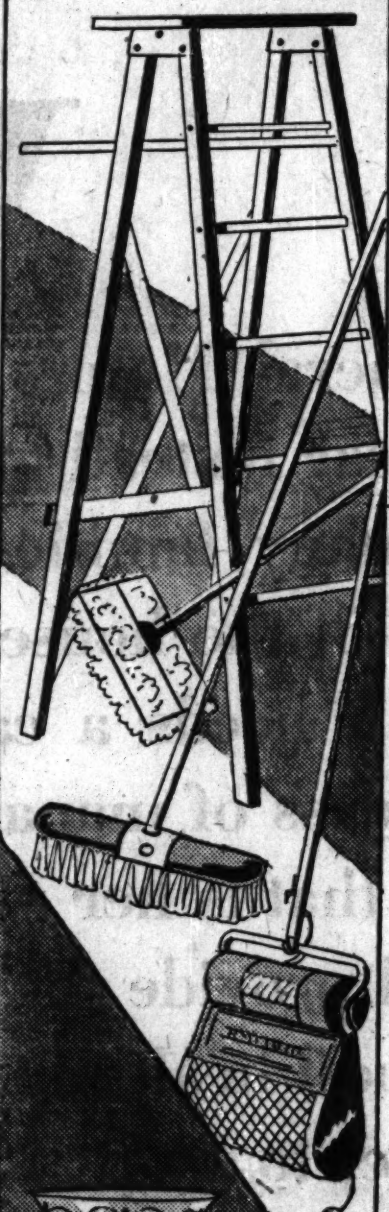

Tall Footed Stemware \$15 the Dozen

The slender pedestal in rose or green, and the bowl of the glass in crystal, delicately etched.

Bridge Lamps \$15 Complete

Or if one wishes, Junior lamps at the same price. The standards have insets of onyx. The silken shades introduce a harmonizing design.

Seventh Floor, North and South.

George Huff

George Huff, who was inclined to favor Chicago as the scene of the game, they could not decide to let Illinois' decision to let Huff said.

It was believed that just to deprive the Illinois team of an opportunity to see the game here in an arena where the game was scheduled to be played.

The date of the game arranged by Coach Jones and Jones of the Illinois team is already booked to play Chicago at Illinois, with the Army through the western and Ohio, and then. It is believed the game will be played.

Illinois' only previous loss to the Army was in 1914. Huff's baseball team, which was in the Army's football team, which was in 1914 and 1923.

MAY BOOK OTHER
Since the break with the Army, the Illinois team has been in the middle of a series of games with leading teams. Games were played with A. A. S. George Little of Wisconsin, and Jones of Iowa. It is understood that the Illinois team will play the Army in 1928, and that the game will be played in the Big Ten stadium.

Tale Refused
Dartmouth will not play the Army in 1928. The team was in the middle of a series of games with leading teams. Games were played with A. A. S. George Little of Wisconsin, and Jones of Iowa. It is understood that the Illinois team will play the Army in 1928, and that the game will be played in the Big Ten stadium.

TUNNEY'S HIS TOPIC IS SHAK
New Haven, Conn. (AP)—Heavyweight Tunney today delivered a lecture before the Yale Phi Kappa chapter. Tunney's lecture was undoubtedly the first ever given at Yale. Tunney's arrival was not announced until before he entered the lecture hall.

Nevertheless, the lecture spread the news of a concerted rush by the time the clock struck 4:00 and the lecture hall was packed. The students who composed the audience were bowled over by Tunney's lecture. When he began his lecture, he was greeted by a roar of applause. Tunney, though he was a professional boxer, demonstrated that he was a man of letters. He spoke of the meaning of the word "shak" and the meaning of the word "shak" in the context of the lecture.

The first book of the series was "A Winter's Tale" by Shakespeare. The first lecture was on the meaning of the word "shak" and the meaning of the word "shak" in the context of the lecture. The lecture was a success and Tunney was well received by the audience.

CURS GET THREE HITS; PIRATES WIN, 6-0

Cade's Travel West for '29 Battle.

CHICAGO, Ill., April 23.—[Special.]—Announcement of a home and home football series between the Army and Illinois was made tonight by George Huff, director of physical training.

West Point will come west in 1929 to play in the Illinois Memorial stadium, the director stated.

In 1929 Bob Zupke will lead the Illinois team to meet the cadets in New York.

Although the Army is expected to favor football in Chicago as the scene of the intercollegiate game, the director's decision to play here, Director Huff said.

It was believed that it would be unwise to deprive the Illinois students of an opportunity to see the game. Since the stadium seating capacity would be brought larger rate receipts, it is pointed out that the location of the game here is an answer to the critics who charge "commercialism" in the scheduling of football games.

Games in November.

"We will be glad to welcome the Army to Illinois," said Director Huff. "After the university was founded at military training has been an important department and our relations with the Army through its representatives have been most pleasant."

The date of the 1929 game will be arranged by Coaches Zupke of Illinois and Jones of the Army. Illinois is already booked to play Michigan and Ohio at Illinois, and Iowa, Northwestern and Ohio State from Iowa. It is believed that the Army game will be played in November.

Only previous contest with the Army was in 1902, when George Huff, then coach of the Army, was defeated in a football game at West Point. The last football game played was Pennsylvania, which was defeated in 1925 at West Point.

MAY BOOK OTHER GAMES

After the break with the Navy, officials of the Army have made several trips into the middle west to schedule games with leading Western conference teams. Games have been discussed with A. A. Stargis of Chicago, George Little of Wisconsin, and Burt Johnson of Iowa.

It is understood that at these conferences games after 1929 were discussed, although there is a possibility that other Wisconsin, Chicago, or Iowa may go east in 1929 and the Army may west for the return of 1929. Such games must be arranged by the boards of control of the Big Ten institutions.

Yale Refuses to Play.

Intercollegiate football will come west in the fall to meet the Purple, while Cornell is expected to come west in other years to meet the Orange.

Chicago, Pennsylvanian, and Cornell are the only teams in the east which have refused to play the Purple and Orange. Yale is now the only team in the east which has refused to play the Purple and Orange.

These intercollegiate struggles are to create an even greater interest in football. Notre Dame retains the status of the Army schedule and will play the cadets in New York this fall. Cornell will lead the Purple in the east, while the Orange will lead the Purple in the west.

These intercollegiate struggles are to create an even greater interest in football. Notre Dame retains the status of the Army schedule and will play the cadets in New York this fall. Cornell will lead the Purple in the east, while the Orange will lead the Purple in the west.

TUNNEY SPEAKS; HIS TOPIC, FOLKS, IS SHAKESPEARE

New Haven, Conn., April 23.—[Special.]—Heavyweight Champion Gene Tunney today delivered an address on Shakespeare before Prof. William Brewster's class at Yale university.

Tunney's scholarly remarks, the same undoubtedly was the most popular ever given at Yale.

Tunney's arrival at the university was not announced until a few minutes before he entered Prof. Brewster's class.

Nevertheless, the "campus wire" spread the news, and there was a concerted rush for the classroom.

The time the champion entered, between 400 and 500 students had gathered themselves into a space which normally accommodates less than 200.

The students cheered when Gene, dressed in a white shirt and tie, appeared, bowed to the rostrum, and then he turned to the rostrum.

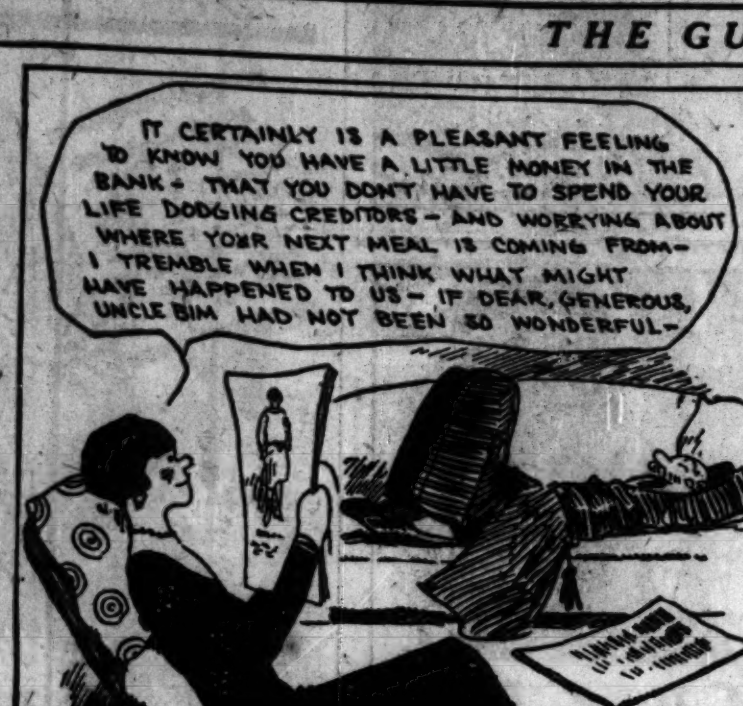

When he had finished he got a more enthusiastic ovation.

BETTER GOLF

BY JOCK HUTCHISON

[ARTICLE II.]

GOOD golf swing starts from the feet, so it is of the utmost importance that the player's feet be placed properly in the stance. In other words, he must have a good stance. It is as fundamental as putting a good foundation under a house, and the essence of this is to be natural and relaxed, with perfect balance.

The body should be balanced evenly on the feet with the weight slightly forward. Because of dropping the head slightly there should be a distance of about two inches between the feet and the heels. The distance between the feet should be approximately the same as the distance between the toes is about twenty-four inches. The distance between the feet should be approximately the same as the distance between the toes is about twenty-four inches.

The toes should point out to give a more natural and freer play on the ball. On the forward swing the right heel leaves the ground with the left heel breaking in toward the ball. The stance for long shots should be slightly open, the right foot slightly nearer the line of flight than the left.

Knees should be bent slightly, which again helps in the assurance of that all-important relaxation. If the knees are held as stiff as ramrods there must be an abrupt break when the left knee yields on the starting swing, and an abrupt break is sure to lead to a jerkiness in the swing which does not help good rhythm. Play the ball a couple of inches inside the left heel.

McTigue Gets Draw in Bout with Emanuel

San Francisco, Cal., April 23.—[Special.]—Mike McTigue, veteran New York light heavyweight, and Armando Emanuel, San Francisco, professional of Jack Dempsey, fought a 10 round draw here tonight.

Referee Toby Irwin's decision came as a surprise, as the single critic thought Emanuel had a shade in seven or eight rounds, with the second and tenth fairly even.

Emanuel showed left hands to the former light heavyweight champion's face steadily in every round.

McTigue made his best showing in the second and tenth rounds, when he landed with rights and lefts to his opponent's face and body.

McTigue's eye was cut in the first round and the injury bothered him considerably throughout. The veteran New Yorker was unable to land his heavy right except on a few occasions.

ZIVIC WINS TEN ROUND VERDICT OVER MCCARTHY

La Velle Drops Sadders for Count in 4th.

BY WALTER ECKERSALL.

Jack Zivic, the Pittsburgh welterweight, won the decision over Jack McCarthy of the west side in the windup of the motor Mike Malloy's boxing show at White City last night.

The easterner won six rounds and the local battler took four.

It was an interesting fight, except at occasional periods when the men went into clinches of separated in the center of the ring. These tactics brought a few bores from the 3,500 spectators who paid \$7,000 to see the bout.

McCarthy started out like a sure winner. He boxed rings around his opponent for the first three rounds. The local fighter, Zivic, landed into all sorts of positions and then belted him around the head and body with both hands. The easterner appeared bewildered and could not fathom McCarthy's style.

McCarthy Three Near Ends.

In the fourth round, Zivic started to shoot his punches straight instead of hooking. At this style he repeatedly beat McCarthy to the punch and piled up a big lead as the round advanced. Zivic took the fifth, sixth, and seventh rounds by use of a straight left and right crosses. McCarthy, who fell through the ropes in the fifth round, tired badly and Zivic kept up his fast pace.

McCarthy managed to regain his stride in the eighth round, in which he had an edge. The ninth and tenth rounds went to Zivic who landed hook counting punches and repeatedly forced McCarthy to the ropes. The decision met with the approval of most of the spectators.

La Velle Knocks Out Sadders.

The semi-windup between George Sadders of New York and Louie La Velle of Anderson, Ind., proved to be the best fight on the program. La Velle won by a knockout in the fourth round after a punch to the stomach in the early part of the stanza hurt Sadders.

In the first round, the Easterner dropped his opponent for an eight count with a vicious right cross. Sadders rallied in the next two rounds, but in the fourth La Velle landed the fight with a solid left hook on the New Yorker's chin. Sadders got up after the count of ten and then fell down again. He had to be carried to his corner. They met at 145 pounds.

In the opening fight Joey Patrick won the five round decision over Johnny Hopfinger. Both live in Chicago and they weigh 124 pounds. George Mavis, local 132 pounder, and Paul Wansley of St. Paul went four rounds to a draw in the second prelin. Henry Cullen, Englewood, fought with Billy Kain of St. Louis and Bobby Nelson and Ralph Mendoza, local lightweights, went six rounds to a draw.

Dan Dempsey and E. L. Cook were the judges and Dave Barry and Tommy Thomas were referees.

LATZO WINS HIS DEBUT AS LIGHT HEAVYWEIGHT

New York, April 23.—[Special.]—Pete Latzo, doubly coal miner from Scranton, Pa., who once held the welterweight championship, whipped Tony Marullo of New Orleans in his ten round debut here tonight as a light heavyweight. Latzo weighed 165½, Marullo 172.

THEY BOTH LOOK HAPPY

Having exchanged uniforms, "Kiki" Cuyler, now of the Cubs, and "Sparky" Adams, a Pirate, decided to exchange greetings yesterday. The camera caught them during batting practice talking over their former and present jobs.

Chicago Boy Wins N.A.A.U. Boxing Bout

Boston, Mass., April 23.—[Special.]—Tommy Down, New York, the national 147 pound amateur boxing champion, won his first round bout in the A. A. U. national boxing tournament here tonight, knocked out Frank R. Miller of Buffalo in the first round with a left hook to the jaw.

Billy Schuman of Chicago whipped Florentino Pesano, United States Naval Academy, in a 115 pound match. Charles McDowell, San Francisco, 147 pounder, and Eddie Burke of Chicago put up the best fight in the first six rounds of the tournament. McDowell was clever and had everything but a knockout punch. He led Burke, a willing mixer, by a wide margin at the bell.

After each batter scored a knockdown Mickey Adams of St. Louis started swinging right hooks and the display won him the decision over Bud Hammer of Gary, Ind. Chicago, defeated Walter Samuels, Schenectady, N. Y., in a 160 pound contest.

Dave Mader, Milwaukee 175 pounder, defeated Willie Huffman, Grand Rapids, in the first round shortly after the bell rang to start the bouts in that class.

[Mader won the golden gloves in the 175-pound division of the Tribune boxing tournament. He knocked out his opponent in the intercity match with New York.]

Old Bat Levinsky Whips Jim Segman in 10 Rounds

Saginaw, Mich., April 23.—[Special.]—Levinsky of Philadelphia, easily defeated Jim Segman of Akron, O., in every round of a ten round bout to night.

That Wasn't No Contract, Jack Dempsey Tells Judge

BY WESTBROOK PEGLER.

[Chicago Tribune Press Service.]

New York, April 23.—The celebrated legal machinations which John Leo McKiernan, alias Jack Kearns, is prosecuting against Jack Dempsey, were progressing nicely until about 3:50 o'clock this afternoon.

On the witness stand before Judge Knox and a jury of detached gentlemen, all of whom had affirmed their utter ignorance of and disinterest in the clean, manly sport of pugilism, Mr. Dempsey was having a hard time explaining to counsel for Mr. Kearns just how it could be that he "did not have no contract" with Kearns but that this contract which did not exist was dated to expire in the summer of 1926, shortly before the first of the Dempsey-Tunney uplift ceremonies in Philadelphia.

Dempsey Has Trouble Explaining.

Judge Knox of the United States District court, a gentleman of pale, delicate countenance with the slightly bulging cheek characteristic of judges, baseball players and others who work under a system of decorum which forbids smoking, was interrupting the proceedings now and again in efforts to learn from Mr. Dempsey how there could have been an expiration date if they did not have no contract.

His honor would ask Mr. Dempsey a question and Mr. Dempsey, with intense earnestness, would explain that this contract entitled Kearns to one-third of his earnings until the summer of 1926, and just as the honorable court would begin to settle back and shift the bulge to the other cheek, Mr. Dempsey would add: "But I wasn't no contract, judge."

He wanted to explain that the contract wasn't no contract because he signed it only to oblige a charge of forgery against Kearns, who had drawn and signed the document for both himself and Dempsey and filed it with the New York prize fight commission in order

to satisfy one of the commission's whimsical requirements. The commissioners, noticing that signatures were in one and the same handwriting, suspected Mr. Kearns of deceiving them, and Dempsey, to spare Mr. Kearns the embarrassment of suspension and such other penalties as pertained to this high offense, traced over the forged signature and acknowledged it before a notary as his own.

Court Reduces Figure.

Thus it was that, although the existence of the contract is admitted by Mr. Dempsey, he still maintained upon the same footing they had made on the third and second with none out and couldn't make the one run then needed to tie the score. It was the fourth time the chance the Sox had and the Tigers produced their first score in the third inning. After Carroll had struck out, Sweener tripped to right and trotted home on Gehrig's sacrifice fly.

The Sox' first opportunity came in

WHITE SOX WASTE SCORING CHANCE; TIGERS WIN, 3-0

Connally Hurls Well, but Mates Can't Help.

Whitewashed

CHICAGO, April 23.—[Special.]—The Sox wasted a scoring chance in the first inning, but they won the game, 3-0, in the third.

Connally pitched well, but his mates couldn't help. The Sox' first opportunity came in the third inning. After Carroll had struck out, Sweener tripped to right and trotted home on Gehrig's sacrifice fly.

BY EDWARD BURNS.

[Chicago Tribune Press Service.]

Detroit, Mich., April 23.—The Sox as per their 1928 unalterable custom when neither Lyons nor Thomas is pitching, lost a ball game this afternoon, but this time the matter can not be blamed on the Sox' pitching.

Serg. George Connally pitched ably but his associates played simply curled up and died in the pinches. The score was 3-0 in the third.

Four times the Connally crew could have broken up the ball game with even so much as a well placed sacrifice fly. But there were none such, hence the trimming. The only solace to be derived from the contest, if there was any solace at all, came in the fifth inning, when the Sox had a hit and the Sox had visions of having one successful inning. Said solace was the amazing ending. Field umpire, who was coaching at third base, was coaching at third base, which is directly in front of the Tiger bench. Connally took his place in the box and Taverne took a lead toward home. Connally fished the ball out of the cesses of his glove and tagged Jackie.

The score remained at 1 to 0 until the last of the eighth, during which time Connally struck out five and had allowed but five hits. Inspired by the happenings in the Sox half of the inning, however, the Tigers broke through two more hits but probably would not have scored except for Cissell's bad throwing error, which let in two runs.

Sox Waste Opportunity.

The Sox defensive blunder in this inning was to be expected because in the same inning they had made an out and couldn't make the one run then needed to tie the score. It was the fourth time the chance the Sox had and the Tigers produced their first score in the third inning. After Carroll had struck out, Sweener tripped to right and trotted home on Gehrig's sacrifice fly.

The Sox' first opportunity came in

Pirates a two tally lead that they never relinquished.

If Malone had been a bit more accurate about his throwing in the third he might have escaped the tiring unadvised. He opened the round by plunking Adams in the pants with a pitched ball. P. Waner followed up the advantage by singling. Wright then rolled a bunt along the third base line, and although there was no chance to get the runner going to third, Malone pegged the ball in the general direction of Butler, and Stephenson picked it up in deep left field. Adams and P. Waner scored without trouble.

Seven Pirates Strike Out

After ridding himself of the various mishaps that proved so costly, Malone settled down and proved that he wasn't as bad as the score board made him appear. He brought the third to a rapid close after making his wild heave and then added five innings in which only two Pirates hit safely. He also rolled up a total of seven strikeouts, three of them coming in order in the seventh when Kremer, Baby Waner, and Adams succumbed before the speed ball.

Malone was not permitted to finish because an opportunity for a pinch hitter appeared in the home eighth. With one out, Webb batted for the pitcher and Kremer walked him. Then English survived on a bunt by Adams. Kelly was called in to bat for Maguire, but he merely popped to Grant-ham, and Cuyler made the day a total loss for his average by grounding out.

Three sound hits were the things that upset Neft and let two more Pirates score in the ninth. Gooch doubled to right with one gone and after Kremer's demise, Baby Waner pushed a triple down the third base line, Gooch scoring. The Baby ran home on a single off Adams' bat.

CARDS HAND 3 RUNS TO REDS; THEN LOSE, 3 TO 2

Cincinnati, O., April 23.—(AP)—A walk with the bases full, a fumble and a wild pitch in the third inning, each of which scored runners, gave the Cincinnati Reds a 3 to 2 victory over the St. Louis Cardinals here today. The Cardinals bunched hits in the second and sixth for two runs, but the Reds broke up a ninth inning rally with a double play when two were on base with none out. Score:

ST. LOUIS	CINCINNATI
Doublet	Adams
Holm	Adams
Wright	Adams
Wright	Adams
Wright	Adams
Wright	Adams
Wright	Adams
Wright	Adams
Wright	Adams
Wright	Adams

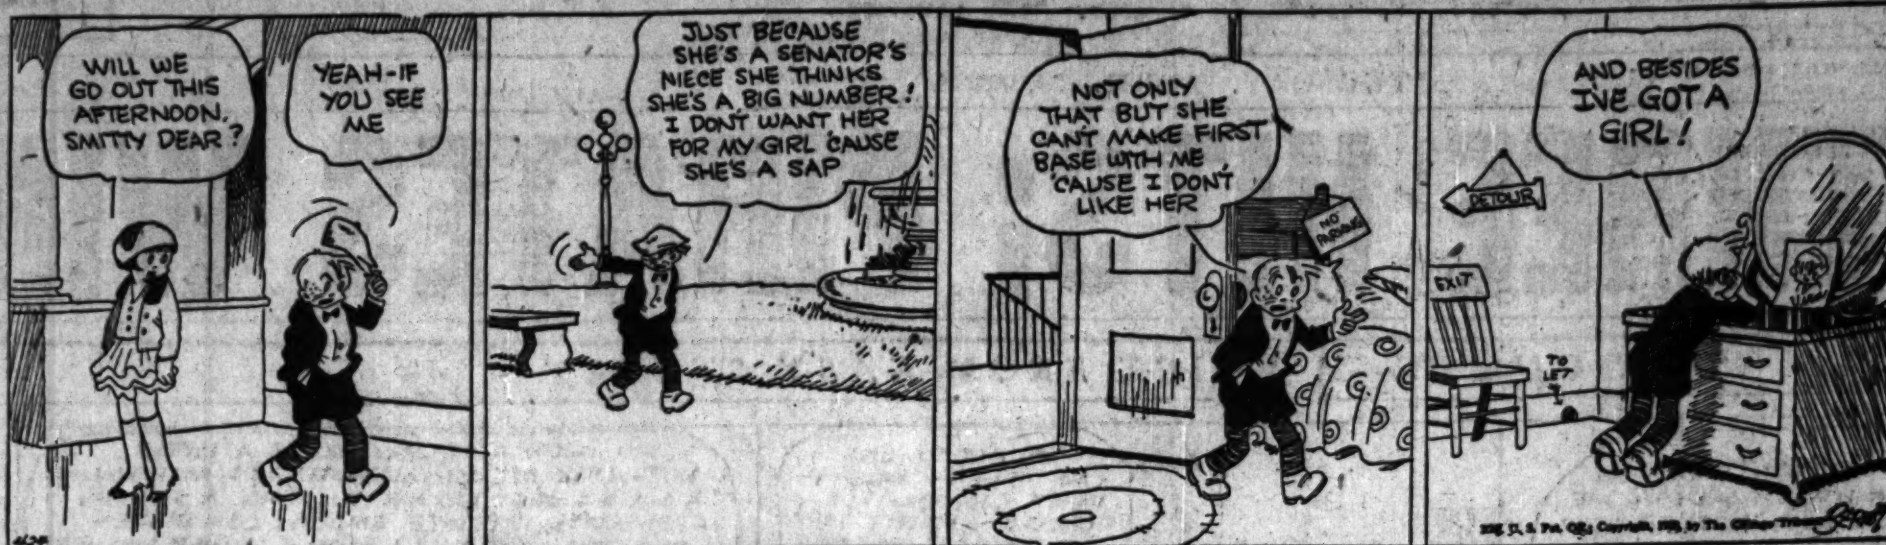

*Batted for Thompson in ninth.
*Batted for Sherrill in ninth.

Pete Donohue, Cincinnati Holdout, Comes to Terms

Cincinnati, O., April 23.—(AP)—Pete Donohue, holdout pitcher of the Cincinnati Reds, signed a contract with President C. J. McDaniel today. The terms were not made known. Pete emerged from conference smiling.

SMITTY—THE GIRL HE LEFT BEHIND

Root Will Face Pirates Today in Third Game

The Pirates are on the Wrigley field program again today. It is Root's turn for the north siders and Dawson's for the champions, but this doesn't mean they'll work.

The gentleman who for several years has been bringing lemons to the park and tossing 'em out whenever the work of the umpires offended him, got so excited yesterday that he called one of the things onto the infield when Malone made the high powered throw into left field.

Mounted heads of two wild goats shot by Charley Root at Catalina Island reached the park yesterday and Root presented one of the trophies to Secretary Bob Lewis. Lewis has hung the thing outdoors until such time as a blip folded person will not be able to detect its presence.

The Cubs knew as early as the end of the first inning that they were in for a profitless afternoon. Three men faced Kremer and two of them—English and Cuyler—could not avoid a third strike.

Norman McMillan now is able to say that he has played second base for the Cubs. He worked at the position in the ninth after a pinch hitter had taken Maguire's place, but he didn't enjoy a fielding chance.

Carleton College Whips Wisconsin Nine in Tenth

Madison, Wis., April 23.—(Special.)—Carleton college upset Wisconsin in a ten inning battle here this afternoon, 4 to 3. After the Badgers had gained an early lead, Carleton tied the score in the ninth and pushed over the winning run in the extra inning. Score: Carleton.....000 002 001 4-3-4 Wisconsin.....110 001 000 0-3-7-2 Batteries—Adams and Simon; Hargrave, Jacobson and Doris.

Sox Offense Falter; Tigers Win by 3 to 0

(Continued From Preceding Page.)

the second inning when they had the bases full and Connally struck out. In the fourth Falk and Kamm walked and were moved up by Cissell's sacrifice. But McCurdy forced Falk at the plate and Connally tapped gently to McManus.

Again in the seventh it seemed certain that the Sox would tie the score. Cissell got the third Sox hit and took second when the ball slipped out of Helmann's hand as he attempted to throw it. McCurdy shoved him to third with a bunt. Then Connally rallied one to Tavenor and Cissell held third while the Sarge was being thrown out. Mostl ended it with a fly to center.

The most pitiable of all the Sox' near scoring efforts—the one in the eighth inning—transpired as follows: Clancy singled to left and went in second when Metzler singled to the same spot—Bud moved to third and Dutch to second when Hargrave threw to center field in trying to catch Clancy off second. Then Barrett struck out his bat at a bad ball and fouled to the catcher, Falk jumped at a high one to take his third strike, and Kamm fled to Rice.

What happened in the Tiger eighth under such encouraging circumstances matters little. But this is the way it came about:

Carroll singled to right and Sweeney struck out. Gehring doubled and Carroll stopped at third. Rice shot a grounder at Cissell, who came up with it and had an easy play on Carroll at home, but threw the ball over McCurdy's head to the screen, Carroll and Gehring scoring.

Umpire Van Grafton chased Manager Schalk in the second inning for criticizing his work behind the plate.

Hoppe Leads Layton in Three Cushion Exhibition

Willie Hoppe got the jump on Johnny Layton, champion, in the opening blocks of their exhibition three cushion series at Mussey's Madison street room yesterday. Although Layton won the afternoon match, 50 to 44, in 38 innings, Hoppe came back in the evening and registered a decisive 50 to 39 triumph which gave him a lead of eight points for the two blocks, the score being: Hoppe, 100; Layton, 92. The third and fourth blocks will be played this afternoon and evening at the same place.

Boric Acid Good But Not Enough

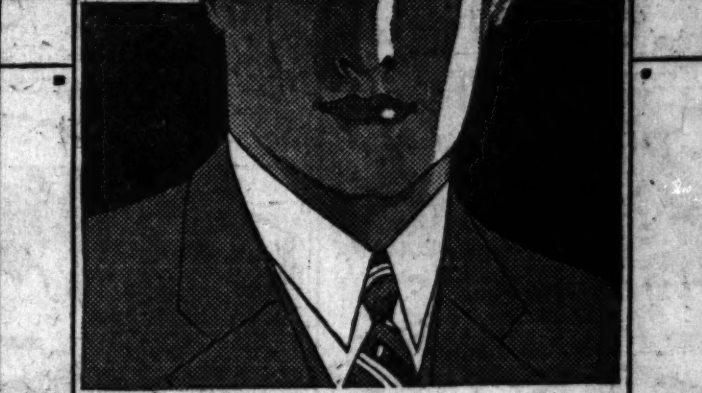

We recommend Iris, America's Eye Bath, because we know it is such a vast improvement over the time-honored eyewash of plain boric acid.

Iris contains camphor, menthol, witch-hazel, boric acid and pure distilled spring water, all sterilized and put into sealed sterile flasks.

Iris does three definite things for you. It makes your eyes sparkle and look alive and vivacious. It cleanses the corners, the tear ducts and under the upper and lower eyelids. It relieves soreness and inflammation.

If you will try one bottle of Iris we know you will realize its virtues. All of our stores are instructed to refund your money if you are not thoroughly pleased. Both the 48c and the 16c size come complete with handy eyecup. Try Iris today.

New York, April 23.—(AP)—Profits in today's stock market on sell-off by speculative unsteadiness in the credit situation. Although a number of oils, rails and specialties fell up in rather impressive fashion, quotations disclosed a long list of declines ranging from 1 to 10 points.

Total sales ran slightly over 1,000,000 shares. The St. Louis federal reserve bank cut its discount rate over the week-end and the Richmond bank today, coupled with an increase in money from 4 1/2 to 5 per cent, stimulated heavy profit taking by both large and small traders and a resumption of attacks against vulnerable issues.

Tobacco Shares Weak.—The weakness of the tobacco shares, based on a sharp cut in cigarette prices, was one of the day's features. Liggett & Myers A and B broke 15 1/2 and 9 1/2, respectively; American Tobacco fell about 5 points each; Lorillard and Reynolds Tobacco 3 1/2.

Pressure also was quite effective against such issues as American Hide and Leather, Baldwin Locomotive, and Altkman, Dunhill International, Ford, Electric Auto Lite, Greenough, Union Carbide, and U. S. Cast Iron Pipe, all off 3 to 10 points.

General Motors Sags.—General Motors and General Electric broke about 5 points to 15 1/2 and 10, respectively, closing near the bottom. U. S. Steel common showed a net loss of 1 1/2 at 14 1/2. Radio opened 7 points higher at 17 1/2, dropped to 17, and rallied to 17 1/2.

New York transactions were strong in the early trading, but sold off later. Hudson and Manhattan ran up over 5 points to new top at 6 1/2 and then sold down to 6 1/4. Several of the oils also were in demand, Mexican Sea Board advancing more than 4 points to a new high of 9 1/2. A. M. Byers, Union Tank and Southern Dairies B also were exceptionally strong.

Devereaux and Hudson was the feature of the railroad group, soaring nearly 10 points to a new 1928 high at 21 1/2. New York and Harlem issues soared about 10 points, each in odd lot trading.

TOPICS OF FINANCE, TRADE AND INDUSTRY

A new Chicago investment house, Wilk, Clarke & Co., was announced yesterday. It will combine the firms of Frederick L. Wilk & Co., Arthur C. Lueder & Co., and Simon Rubel & Co. Mr. Wilk will be president and Alois R. Clarke vice president. Offices will be at 39 South La Salle street.

The Cleveland Trust company, as trustee, has mailed checks for a liquidating dividend of 10 per cent of the par value of the 7 and 8 1/2 per cent first mortgage collateral trust gold bonds of the Union Mortgage company in receivership. Approximately \$2,000,000 of 7 per cent bonds and \$1,250,000 in 8 1/2 per cent bonds are outstanding.

Directors of the Chemical and Dye corporation declared an initial quarterly dividend at \$1.75 a share on the first preferred stock. Mexican Eagle Oil declared a dividend of \$1.85 on each ten shares of the first preferred and Canadian Eagle dividend of \$1.175 on each ten shares of its first preferred. Kruskal Chemical, Inc., declared a quarterly dividend of 3 1/4 per cent. Previously 10 cents was paid quarterly.

W. F. Buckley, president of Pantepec Oil company of Venezuela, and Ferguson Reid, a director, said to be the largest individual stockholder of the company, have gone to London from Paris, where they were reported to be negotiating the sale of the company's foreign interests. Stock control of the company recently was said to have been under operation to P. J. Lisman & Co., who were negotiating the sale of this block of stock to foreign interests.

John P. Sullivan, former secretary and general manager of the Rubber Trade Association of New York, has been appointed interim secretary of the new National Raw Silk exchange, Charles V. V. Smillie, temporary president, said about 200 applications for membership have been approved by the board of governors.

Business of the Otis Elevator company is keeping up surprisingly well, W. D. Baldwin, chairman, reported to stockholders. While there has been a falling off in business in certain sections, increases in others have more than compensated for these declines, he said. Directors were re-elected.

Stockholders of Continental Securities corporation of record May 15 are offered the right to subscribe for three shares of 5 per cent cumulative preferred stock and two shares of common stock for each ten shares of common stock held at \$440 for each such block of preferred and common stock. Rights must be exercised on or before June 4.

The Ludlum Steel company earned \$1.08 a share in the first quarter of 1928, against 41 cents a share in the same 1927 period and \$1.07 for the full year 1927. The net income for the first six months is expected to exceed the \$2 a share yearly dividend requirements.

PRICES DECLINE ON CURB UNDER HEAVY SELLING

New York, April 23.—(AP)—Prices sagged on the curb market today. Apprehension over the credit situation generally, and an increase in the call money rate in particular, furnished the impetus for the selling movement.

Philip Morris issues declined on announcement of a reduction in cigarette prices. Bantley slumped more than a point and lower as great as 4 points were made by Tubas Art Silk, Deere & Co., Rubenoid, International Shoe, General Baking, American Rolling Mills, and others.

Some of the chain store issues, such as Nelson Brothers, Interstate Department Stores, and Sanitary Grocers, made substantial gains. Baxter Laundry A, American Solvents, Higo Binnens, Belbering Rubber, and New Jersey Zinc touched new peaks.

The motor and accessory shares generally closed lower. Auburn Auto losing nearly 3 points and Marmon 1. Marvel Carburetor and Broadway Motor Truck, however, reached higher ground.

Looses as great as 5 points appeared in the utility group. Electric Bond and Share resisted selling early in the day, but was forced down more than a point before the close. United Electric Company advanced to new high territory. Gains of the pipe lines and a few others were outstanding. Darby Petroleum reached a new peak on expectations its forthcoming 1927 report would be favorable. Improved business conditions brought buying support to the pipe lines, lifting Eureka, Southern, and others to higher levels. Gulf, Humble, Standard of Kentucky, and Prairie Oil recovered after early weakness and advanced 1 to 2 points. Penn-Mex Fuel sagged about 1 point.

BONDS IRREGULAR BUT UNDERTONE CONTINUES FIRM

New York, April 23.—(AP)—Practical irregularity ruled the bond market today, but there was a firm undertone despite tightening credit conditions. Increases of the Richmond federal reserve bank's discount rate, the fourth raise in less than a week, contributed to a feeling of hesitancy and some profit taking.

A moderate amount of realizing was apparent in several high grade issues which have been selling close to record prices. Central Pacific 4s were offered rather freely, and Chesapeake corporation 5s fell back fractionally after duplicating their previous high at par. There were a few bonds of this class, however, which moved forward, including Rock Island 4s and Delaware and Hudson 4s.

St. Paul bonds were traded in heavily, but at fractionally lower prices. Nearly \$2,000,000 of the two 4 per cent issues changed hands. Seaboard 5 1/2s lost ground. Recently popular New York traction mortgages were in demand in the early dealings, but gains were reduced in late selling. Convertible bonds, particularly Anaconda Copper 7s, again rose briskly. Park-Lexington Lease 6 1/2s, which leaped into prominence last week, sold at 101 1/2, the first time this year they have crossed par.

The market for foreign obligations was broad, but there were few outstanding features. United Kingdom 4s, listed last week, were quoted in eighths of a point instead of thirty-seconds, as heretofore.

RUBBER.—The market for foreign obligations was broad, but there were few outstanding features. United Kingdom 4s, listed last week, were quoted in eighths of a point instead of thirty-seconds, as heretofore.

\$550,000 Park Gables Apartment Building 6% First Mortgage Real Estate Gold Bonds

Dated December 20, 1926. Interest from February 1, 1928. Principal and semi-annual interest (February 1st and August 1st) payable at the First Trust and Savings Bank, Chicago. Coupon bonds negotiable as to principal, in denominations of \$1,000 and \$500. Redeemable in their inverse numerical order on any interest date at 60 days' notice at 102 and interest. First Trust and Savings Bank, Chicago, Trustee.

These bonds are secured by a closed first mortgage on the land and building at 2438 to 2508 Estes Avenue, Chicago. The lot has a frontage of 342 feet on Estes Avenue and 264 feet on Artesian Avenue.

Park Gables is a new three story, high basement, brick co-operative, 72 apartment building. The building, in the shape of an "E" with wide twin courts, is of English architecture with face brick on four sides, stone trim and high pitched slate mansards. There are 9 apartments of 6 rooms and 2 baths, 42 apartments of 5 rooms and bath, 21 apartments of 4 rooms and bath, swimming pool and many special features. The building is modern and complete in detail throughout. This loan was originally made by us as a construction loan. The building is now completed and over 70% occupied.

LOCATION: The property immediately adjoins and faces Indian Boundary Park an attractive fifteen acre State Park in West Rogers Park. Motor bus and surface lines operate within a block of this property.

APPRAISAL: Appraisers selected by us value the lot at \$205,800 and the building at \$727,170, a total valuation of \$932,970.

SAFEGUARDS: Guarantee Policy issued by the Chicago Title and Trust Company guarantees that the trust deed given to secure the bonds is a first lien.

Sufficient fire and tornado insurance fully protect the bond holders.

All legal details approved by our counsel Messrs. Winston, Strawn and Shaw.

CO-OPERATIVE OWNERS: The Boundary Park Gables Apartment Building Corporation is the owner in fee simple of the land and building erected thereon. This building is 100% co-operatively owned and managed. The entire capital stock of the corporation has been divided into units, a unit being allotted to each apartment. The total sale price of the apartments aggregate \$1,146,200, or over twice the amount of the first mortgage bonds. In addition to the stock the purchaser of each apartment receives a proprietary lease from the owner corporation for a term of 99 years. Fifty-three apartments out of a total of seventy-two have already been sold.

\$124,000 due serially August 1, 1930 to August 1, 1938 inclusive.
\$426,000 due February 1, 1939.

Price 101 and Interest to Yield from 5.50% to 5.87%

PRICES: First maturity priced to yield 5%; Second maturity priced to yield 5 1/4%; Remaining Maturities, 100, to yield 6%. Accrued interest to be added.

Mr. James Simpson, President of the Company, has summarized his descriptive letter, as follows:

HISTORY AND BUSINESS: The Abingdon Sanitary Manufacturing Company, incorporated in 1908 under Illinois laws, was founded in that year by the present management, with an original investment of \$60,000. The company has earned a profit in each of the past 16 years, and in addition to accumulating its present net assets has paid substantial cash dividends to its stockholders. The company is engaged in the manufacture of sanitary earthenware and vitreous china products. In addition to a complete line of sanitary plumbing ware, the company is now one of the leading producers of Soda Fountain equipment, syrup jars and other vitreous china specialties. Gross sales have increased from \$561,000 in 1920 to over \$1,300,000 in 1927.

PURPOSE: The proceeds of the bond issue will be used to retire the company's outstanding bonds, and to increase working capital.

PROPERTIES: The company's properties are in Abingdon, Illinois, where it owns approximately 18 acres of land in fee and two complete manufacturing plants with a total floor space of 350,000 square feet. Both plants are equipped with modern tunnel kilns having a combined capacity for burning 1200 large pieces of sanitary ware a day and have adequate switch track facilities. On the basis of an appraisal of the property under date of December 15, 1926, plus subsequent additions at cost less depreciation, the properties have a sound depreciated value of \$1,401,715. In addition the company's balance sheet as of March 31, 1928, adjusted to give effect to this financing shows net current assets of \$421,942.

SECURITY: The bonds will be the direct obligation of the company and will be secured by a closed first mortgage on the company's fixed assets, as described above. The trust indenture securing the bonds will provide, among other conservative restrictions, that as long as these bonds are outstanding the company will pay no dividends, or convert current assets into fixed assets, which would reduce current assets below 200% of current liabilities, or net working capital below \$300,000.

EARNINGS: The company has earned a profit in each of the past 16 years. For the eight years ending December 31, 1927, net earnings after all charges, including depreciation and interest paid, but before Federal Income Taxes, have averaged \$251,425. This period includes two years of abnormally high profits, due to unusual conditions in the trade. For the past two years, net earnings as certified by Arthur Andersen & Co. after all charges including depreciation based on cost, available for interest and Federal Taxes have been as follows:

1926	1927
\$188,624	\$209,699

Such earnings for the past two years have averaged \$199,161, or in excess of six times the maximum interest requirement on these bonds.

SINKING FUND: The trust indenture further provides that if dividends in excess of \$90,000 are paid in any one year, an amount equal to such excess shall be deposited with the Trustee to be used for the retirement of the latest maturity of these bonds outstanding, either through the purchase of bonds at or below the call price or, if not obtainable, through their redemption by lot.

Legal proceedings under the supervision of Fisher, Borden, Kales & Bell. Audits by Arthur Andersen & Company for the years 1926 and 1927, and prior thereto by Gilbert B. Geiger, Peoria. Appraisals by the Manufacturers Appraisal Company.

Offered when, as and if issued and accepted by us, subject to approval of counsel. Delivery in the form of permanent bonds anticipated on or about May 1, 1928.

A Time to Strengthen Your Strong Box

THE best time to invest your surplus income, market profits or other funds, is when you have the money available. Today's tax exempt bond market should have a broad appeal because the level of prices generally is unchanged from that prevailing early in the year—this in contrast to the strong upward swing in the speculative markets during recent months. Shrewd men are taking advantage of present opportunities to make conservative income-producing investments on an attractive basis.

Below are listed a few representative Government, State and Municipal bonds which in our judgment are highly desirable at present yield levels, the income from which is not subject to the Federal income tax.

- 1 How can anyone become independent financially on small wages?
- 2 How can anyone provide the good things of life for one's self and family?
- 3 How can the rich man get more out of life?
- 4 Why do high salaried men often grow poorer the more they earn?
- 5 Why are there more widows than widowers, and what is the remedy?
- 6 Why are so many rich men poor?
- 7 What is the safest investment?
- 8 What investment has the miser missed?
- 9 What is a sure shock absorber against adversity?
- 10 What crime does the spend-

High grade La Salle street organization has an opening for four clean cut, good producing bond salesmen.

These openings have wonderful possibilities to the right man.

The officials of this organization give 100% co-operation to their men.

References required. Replies will be treated strictly confidentially.

A client of ours, a substantial firm of investment bankers, with nation-wide facilities for distribution, is desirous of negotiating the purchase of new stock or bond issues. Consideration of such issues will not be restricted to any particular type of business, but they must be representative of successful, well-established enterprises with demonstrated earnings, for at least three years, sufficient to justify financing to the extent of at least \$500,000, and preferably a much larger amount.

1. Provide additional working capital for sound expansion.
2. Finance the purchase of a retiring or non-active interest.
3. Provide funds for the acquisition of a kindred or competitive enterprise, the absorption of which will create a stronger position.
4. Provide capital for mergers in industries or lines of business now showing healthy growth.

To the successful business man to whom none of the foregoing suggestions are applicable—who would like to capitalize marketwise the intangible values in his business or improve the liquidity of his investment—our client is prepared to render an invaluable service.

In replying please give a complete summary of all essential facts. Correspondence may, if desired, be initiated through an attorney or some other person.

Bankers having clients who may be interested are also invited to

Address President

NEW YORK SOCIETY.

New York, April 23.—[Special.]—Mr. and Mrs. Richard C. Colt arrived yesterday at the Drake from their trip around the world.

Mr. and Mrs. Cornelius R. Agnew have returned from Palm Beach and are at Mayfair house.

Mr. and Mrs. Amory S. Carhardt are returning from Europe on the Olympic, due tomorrow.

Mr. and Mrs. Philip A. S. Franklin and Mrs. Gustav L. Stewart have returned from a visit to Charleston, S. C.

Mr. and Mrs. Charles E. Mitchell of 5th avenue gave a dinner this evening for the Italian ambassador and Mrs. De Martino.

The American ambassador to Cuba and Mrs. Noble E. Judah will arrive at the Ambassador hotel today from Havana.

Mr. and Mrs. Francis M. Whitehouse have left the Ambassador and are now at their apartment in Park avenue.

HAROLD TEEN—ANENT THE WIDOW

A Woodburning Fireplace

A real fireplace with broad stone hearth and separate flue to the roof, dominates each spacious living room in

The Cloisters

THE skillful craftsmanship that made this possible is evident in every detail of this unusual building.

It will do your heart good to rediscover here the fine spirit of American workmanship still evident in this age.

Come to the Cloisters and find your ideal of beautiful home surroundings will do!

EARLE A. SHILTON

Owner Representative

The Masher Who Lurks in Theaters

Should Get the Gate
By DORIS BLAKE

Yesterday we warned girls against the curbside masher, the young (or old) man who drives up in a car and offers a lift to a girl he's never laid eyes on before. We told you in the words of the ten-twenty-third old melodrama that he means no good by our Nell. And take that for exactly what it means. No good by any girl foolish, reckless, and senseless enough to accept!

So long as we are on the subject—there are other mashers to look out for. One of these makes his favorite haunt the movies. One of him was seen shifting his seat three times to sit next to a woman or girl. The third time he succeeded in engaging the interest of two young girls unaccompanied. Presently they were giggling at him and nudging each other. Later they left the theater together. The fellow was a good dresser, but as a male observer of the performance commented, "How do they know but that fellow is a crook?"

"Pool girls" he added. The bars on certain conventionalities that concern relationships between the sexes have been coming down for years. But not on the matter of introduction! And there is a good reason why Dame Grundy still requests the formality. It is purely a matter of protection.

Many unfortunate acquaintances have been made in the correct and formal way of being introduced, it may be argued. Nevertheless, the fact is not to be denied that getting some estimate on the man introduced. The sponsor at least makes the man's history traceable, if one is interested. Without a sponsor, how are you going to know what sort of person it is who approaches you? And you can go on the premise that a young man who is desirable does not have to and will not resort to any such measures of acquaintance making.

If, as you may think, the man is out for a little adventure, be assured that in his mind the occasion remains an adventure and the girl picked up part of an evening that has nothing to do with his more serious pursuit of life. Remember, too, that what a man may do to himself is a thing apart in his mind from what he expects of a girl—the girl, I mean. And it's the girl, not just a girl, that is the romance of his life.

DORIS BLAKE ANSWERS

Considerate.
"Dear Miss Blake. My girl and I quit. I've asked her to be my friend for a date, but she refused, saying she did not want to make the other jealous. Please advise, JACKSON."

There really isn't occasion for jealousy. She apparently doesn't wish to dispense her friend.

FARM AND GARDEN
BY FRANK RIDGWAY

Parasites and salinity are two crops now bidding for a front seat on the fruit and vegetable stands along with oranges. Every well rounded garden should have a row of each one of these crops.

Both vegetables contain practically the same amounts of vitamins A and B as oranges, according to E. I. Weaver of the agricultural college at Urbana, Ill. In food value he ranks them with carrots, beets and potatoes.

Old time gardeners know salinity as oyster plant or vegetable cyst because it has a flavor quite similar to that of an oyster. In this section parasites and salinity may be started in the open garden about the first week in May. The seeds of both crops may be sown as late as the first of July, but it is advisable to plant them as early as possible.

Weaver finds these crops quite resistant to drought if sown early. Both are fairly sure crops and easy to grow if planted in deep, fertile soil. Parasites and salinity are root crops that take a long time to develop properly and, therefore, take up space in the garden from early summer until the end of the growing season. Many growers leave them in the garden during the winter because constant freezing does not injure them. In fact, Weaver and other horticulturists say the quality of the roots is actually improved with freezing. Some die them and cover the roots with dirt and leave them outdoors in winter, while others cover them with sand and keep them in a cool basement.

They may be boiled and served with cream dressing or used in making soups or stews. Parasites may be prepared and cooked like French fried potatoes or fried American style.

**Do You Know
What a Woman of
30 Should Weigh?**

It all depends on her height, of course.

If she is five feet seven inches in height she should weigh according to the best authorities 142 pounds.

If she is 5 feet 5 inches her normal weight is 134 pounds.

If she is 5 feet 3 inches she should weigh 126 pounds.

It's dangerous to be always striving to grow thin—the Adirondack Mountains and health resorts everywhere are filled with health shattered women who will tell you that it doesn't pay to be too thin.

That is why so many thousands of overweight men and women are putting their faith in McCoy's Tablets.

McCoy takes all the risk—Read this ironclad guarantee. If after taking a sixty cent box of McCoy's Tablets or 2 One Dollar boxes any thin, underweight man or woman doesn't gain at least 5 pounds and feel completely satisfied with the marked improvement in health—your druggist is authorized to return the purchase price.

The name McCoy's Cod Liver Oil Tablets has been shortened—just ask for McCoy's Tablets at

Wrap Around Skirt Achieves New Effect

by Corinne Lowe

NEW YORK.—[Special Correspondence.]—They have really turned this wrap-around skirt of ours into a sort of rhapsody-around skirt. We mean to say it executes such ecstatic little flourishes, such rhythmic gestures, such unexpected tonal effects that it really gets itself into the class of high brow music.

Now here from Germaine comes a frock that is typical of the unexpected ways which a wrap-around skirt may take to get itself attention. The frock is made of satin back crepe with the brilliant side in the ascendant and with the dull side executing only minor roles. One of these functions for the dull side is in the form of three bands defining a normal waist line. Now these bands crisscross the figure and then descend with the wrap-around section to emerge triumphantly as godets for this side drape. Really now, was anything so ingenious ever devised before?

For the rest there is a fluff of the dull side and there are the bands on those very odd shaped sleeves. These sleeves, by the way, are eloquent of the license given to this detail, now, nowadays. A sleeve may really be almost anything, provided it's a little different.

O, yes, and needless to say, we're speaking here of black satin back crepe!

**Bright Sayings
of the Children**

The Tribune will pay \$5 for each child's saying printed. The story told must never have been printed in any magazine or paper. It is not possible to acknowledge or return unsolicited contributions. Write on one side of the paper. Address bright sayings to Auntie Bee, The Tribune, Chicago.

"Your twin nephews look exactly alike," remarked a guest to a young aunt. "They don't at all," replied aunt. "I can't understand why Artie has so good a temper and Willy so very bad a one."

"Maybe our tempers are not twins," gravely suggested Artie. F. J.

A FRIEND IN NEED
BY SALLY JOY BROWN.
To Help a Student.

"I know a very interesting young girl attending high school. She is one of a large family and is eager to become proficient in typewriting in order to help her mother, who is a widow. The family cannot afford to buy or rent a typewriter and I wonder if you could get one for her."

A typewriter given to this bright, ambitious girl would be a help to the entire family. If you have an old one, I am sure it could be renovated and put in working condition for her.

**No one
is safe!**

Honorable, society leader, doctor, aviator—every one of us, no matter who we are, may offend.

**Intimate facts
about body odor**

Try this delightful toilet soap—it deodorizes

THERE'S no hiding body odor. The faintest hint of it is sure to betray us—and prejudice people against us.

You know yourself what a poor opinion you have of any one who offends. But do you realize that not one of us is safe from body odor?

To live, we must perspire. Even on cool days, our millions of pores continually give off invisible perspiration—often as much as a quart of waste every 24 hours.

Stop taking chances
This body moisture, whether visible or not, is always odorous. And there's no escaping it. Every one of us—from laborer to society leader—may offend unless we take precautions.

Not can we tell when we are guilty. For, once an odor becomes familiar to us, our own sense of smell becomes desensitized to it.

Yet it's simple to avoid offending. Just wash and bathe often with the delightful toilet soap that millions enjoy—Lifebuoy.

The same bland and abundant antiseptic laquer that keeps body odor by removing germs—prevents body odor by purifying pores. Keeps complexion so fresh and clear, too. Millions favor Lifebuoy for all purposes.

Note its hygienic scent
You will learn to love Lifebuoy's pleasant clean scent, which tells you Lifebuoy purifies, yet which quickly disappears after rinsing. The Lifebuoy a week and you'll use it for life. Get some today.

STOPS BODY ODOR. PROTECTS HEALTH.

Exit: The Dog with the Tin Can, and Cruel Little Boys

by Corinne Lowe

Actually I only remember seeing it once—the spectacle of a dog with a tin can tied to its tail fleeing white-eyed from its tin can torment.

That was in my childhood, but even then it was going out of style.

But while the dog and the tin can were a rare sight, the life of a stray cat was still a hectic thing. It was still fun for boys to throw sticks and stones at them and see their backs hump and bristle and their tails swell.

The sight of a boy said one thing to a cat and that was "flee for your life!" Things are very different now. It's rarely that you see a child cruel to an animal any more. Dogs and cats, lost or homeless, go their ways undisturbed or else are patted and talked to. And you know of one instance of a boy or girl robbing a bird's nest?

Some of this is the result of a mild campaign of education that has been going on for a long time. One step toward accomplishing its aim was the universal introduction of nature study into the schools. This took children behind the scenes of animal life and made them feel with animals rather than against them.

The other was the arousing of the imagination as to an animal's feelings and an appeal to their sense of fair play. All these things have worked together to give children a feeling of respect and an understanding of animals.

Children have a natural love of animals and an instinctive interest in them. And these feelings are something to foster. The love of and the interest in animal life—in bird and beast and fish—help to make richer their understanding of this great amazing earth on which we live.

What brought all this to my mind was something a very lively, very real boy said to me after he had been watching one little dog, this little cat, and starry alley cat, and dirty battle scarred, pugilistic looking alley cat.

"What do you suppose," with a wistful look, "what do you suppose, why those alley cats would do if you gave them a platter with a pound of liver on it . . . and a butterfish . . . and a juicy roast chicken with a garnish of catnip?"

And I had to restrain myself from giving in to an impulse to say, "Let's go get them all right now."

(Copyright 1928: By The Chicago Tribune.)

**GEORGE M. RAY,
VETERAN HOST AT
LAKE RESORT, DIES**

George M. Ray, for more than 30 years the proprietor of the old Lake resort hotel on the shores of Diamond Lake, died yesterday in his residence in Mundelein. Mr. Ray was 78 years old and was brought to Illinois by his parents from New York, in 1853, when he was a baby.

Mr. Ray was a brother-in-law of B. B. Terpening, general superintendent of the Chicago and North Western railroad. He is survived by his widow, Mrs. Harriet Ray, and by seven grown children.

**William Daley, Doctor
Here for 25 Years, Dies**

Dr. William Daley of 2140 Arthur Avenue, for more than 25 years a practicing physician in Chicago, died yesterday at the Mercyville sanatorium at Aurora. He was 63 years old, and is survived by his widow and two sons. Mrs. Daley is a sister of Mrs. Edward Hines, wife of the millionaire lumberman. Funeral services will be held tomorrow at St. Henry's church, Ridge and Devon avenues. Burial will be in Calvary cemetery.

Manufacturers to Dine with Glenn's Chair Vacant

Believing they will be carrying out the wishes of their late secretary, John M. Glenn, the directors of the Illinois Manufacturers' association, following a meeting yesterday announced that a dinner at which J. D. A. Morrow, president of the Pittsburgh Coal company, is to be held at the home of his cousin, Mary I. Gearty, at 3844 Greenhew street, following an illness of two years.

Father Gearty was ordained 17 years ago. He was 47 years old. His first Chicago appointment was in St. Mel's Catholic church, where he remained for seven years. He also was assistant pastor for periods at St. Mary's of the Lake, St. Matthews and at the Church of the Blessed Sacrament on the west side.

Funeral services will be held Thursday at St. Mel's church. Office of the Dead will be said at 10 a. m. and a solemn requiem high mass will be celebrated at 10:30. Interment will be in Mount Olivet.

**Samuel Ogden, 72, Indiana
Manufacturer, Banker, Dies**

News of the death of Samuel Ogden, 72, manufacturer, banker and philanthropist of East Chicago, Ind., for the last 20 years superintendent of the Graceland Chemical company there, at his winter home in St. Petersburg, Fla., Saturday, was received by friends and business associates yesterday. Mr. Ogden was president of the East Chicago Manufacturers' association. He was known as a noted chemist and rose from common laborer in the Graceland plant in Olean, N. Y., to the superintendency of the East Chicago plant of the company.

**Mrs. Christiana Humphrey
Will Be Buried Tomorrow**

Funeral services for Mrs. Christiana Williamson Humphrey, 91, who died Sunday at the home of her daughter, Mrs. August Hawk, Barton, Ill., will be held tomorrow at Gents chapel, with interment at Oakwoods cemetery. Mrs. Humphrey was born in Donnersheim, Sherrard Island, Scotland, Feb. 1, 1837, and came to Chicago 44 years ago. She is survived by two daughters, four sons, eleven grandchildren and three great-grandchildren.

**North Shore Guild
Gives Play Tonight**

The North Shore Theater guild production, "Tons of Money," under the direction of David Owen, will be presented tonight in Glenview. On succeeding nights it will be given in Highland Park, Lake Forest, and Winnetka, and in Winnetka and Evanston on May 1, 2 and 3. Included in the cast are Julia Hanks Moller, a former member of the Wisconsin Players in Milwaukee, Paul Faust of Evanston, Louis Ellsworth Laffin of Lake Forest, Mrs. Irene Wickes of Evanston, Oliver Farnsworth of Evanston, Lloyd Paxson of Winnetka, Charles Eastman, William Pearce and Edith M. Phillips of Highland Park.

**DePauw Alumni to Have
Annual Dinner Tomorrow**

Chicago alumni of DePauw university will give their annual dinner at 7 o'clock at the Union League club. Speakers will be Prof. Francis C. Tilden, Dr. Raymond J. Wade and Dwight S. Ritter. Roy O. West will be present with several special guests. Several hundred graduates and former students of the university reside in Chicago. Louis S. Binkley, Main 1019, is in charge of reservations.

Benefit for Nursery.
A theater benefit for the Douglas Park day and night nursery will be given on Wednesday evening, May 9, at the Logan Square theater, 2540 Milwaukee avenue. Mrs. B. Lerner, 3520 Ogden avenue, is chairman of the affair.

FATHER GEARTY, FORMER PASTOR IN CHICAGO, DIES

The Rev. Father John J. Gearty, formerly pastor of several Chicago Catholic churches and more recently assigned to the Immaculate Conception church in Morris, Ill., died yesterday at the home of his cousin, Mary I. Gearty, at 3844 Greenhew street, following an illness of two years.

Father Gearty was ordained 17 years ago. He was 47 years old. His first Chicago appointment was in St. Mel's Catholic church, where he remained for seven years. He also was assistant pastor for periods at St. Mary's of the Lake, St. Matthews and at the Church of the Blessed Sacrament on the west side.

Funeral services will be held Thursday at St. Mel's church. Office of the Dead will be said at 10 a. m. and a solemn requiem high mass will be celebrated at 10:30. Interment will be in Mount Olivet.

WILLIAM ALEXANDER, 66 years old, who emigrated from Scotland to the United States in 1842, died yesterday at Michigan City, Ind. Alexander was for several years keeper of the lighthouse at New Buffalo, Mich.

When Pain Comes

Two hours after eating

What many people call indigestion is often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless, tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.
